

Veritas™ System Recovery 16, Veritas™ System Recovery 16 Linux Edition, Veritas™ System Recovery 16 Management Solution, and Veritas™ System Recovery 16 Monitor Software Compatibility List

Created on October 04, 2017

Introduction

Listed below are the available operating systems, platforms and applications specifically supported by Veritas to be compatible with Veritas™ System Recovery 16. This list includes the VSR family of products namely, Veritas System Recovery 16, Veritas System Recovery 16 Basic Edition, Veritas System Recovery 16 Linux Edition, Veritas System Recovery 16 Management Solution, Veritas System Recovery Granular Restore Option and Veritas System Recovery 16 Monitor.

1. Compatibility with other Veritas products

Compatibility with other Veritas products is important to the VSR team. Out of practical necessity, any efforts to ensure compatibility are limited to Veritas products that are current or, in other words, have not had an End of Life (EOL) announcement. Any exceptions or limitations for any Veritas product to this policy are noted here.

- The Symantec Protection Suite is no longer qualified from SSR 2013 R2 SP4 and later.
- VSR cannot create a backup at the same time Continuous Protection Server (CPS) is running.

2. General compatibility notes

- VSR is Volume Shadow Copy Service (VSS) compliant. For VSS-aware database environments; example Exchange, SQL Server, and so on; SSR ensures that system state information is accurately captured. If a VSS-aware product, example Oracle 11g, has specific procedures to follow for a VSS backup, you must follow them.
- In case, if Windows 8/Windows Server 2012 is not supported by the hypervisor, VSRD version 16 may not boot successfully on virtual machines running on such hypervisors

3. Veritas support of 3rd party manufacturer products

Veritas will cooperate with 3rd party vendors, and attempt to assist in the diagnosis of problems found between the 3rd party and Veritas products. Veritas Technical Support on the combination of Veritas and 3rd party products listed in this document is conditional on the 3rd party product being supported by the original manufacturer or vendor. If the original vendor has ceased providing support for a version of their product, Veritas also will no longer be able to provide support on that product in combination with our products.

4. Minor "dot" version support

The contents of this document including 3rd party applications, databases, operating systems, in combination with Veritas products represent what has been tested in Veritas labs, or in Veritas-supervised partner labs, but is not intended to be a complete list of supported products and versions. Manufacturers of these products may frequently release minor version updates to their products as maintenance during their product's normal life cycle. (example version 1.x.x.x) that may not be explicitly listed in this document. In these situations where the base or major version of the product is listed as supported in this document but the minor maintenance update is not, Veritas will provide "reasonable effort" support on these versions until specific testing of them has completed.

5. Not every combination of software and hardware is tested.

Veritas provides best efforts to qualify Veritas System Recovery 16 with as many different operating systems, service packs, hardware platforms, database application service packs, and other applications as possible. However, due to the number of combinations, it is not possible to test all combinations for compatibility. If a particular service pack or version is not listed as specifically tested by Veritas, it may work fine, but has not been explicitly tested by Veritas with Veritas System Recovery 16.

6. To request additions to this list:

If a particular platform is not currently listed as being supported, a request for additions to this list can be made through contacting the Veritas System Recovery product management team.

Supported Software

The following sections list the software supported by Veritas System Recovery 16. The newly added software are added to this list for each release. See the feature in its respective section, via bookmarks, for more details.

VSR Section

- ESXi 6.5
- Microsoft Surface Pro 4
- Windows Server 2016
- SQL Server 2016

VSR-MS Section

- ESXi 6.5
- Windows Server 2016
- SUSE Linux Enterprise Server 11 SP4
- Red Hat Enterprise Linux 6.6
- Red Hat Enterprise Linux 6.7
- Red Hat Enterprise Linux 6.8

VSR-L Section

- Red Hat Enterprise Linux 6.6
- Red Hat Enterprise Linux 6.7
- Red Hat Enterprise Linux 6.8
- Red Hat Enterprise Linux 7.0
- Red Hat Enterprise Linux 7.1
- Red Hat Enterprise Linux 7.2
- Red Hat Enterprise Linux 7.3
- SUSE Linux Enterprise Server 11 SP4
- SUSE Linux Enterprise Server 12
- SUSE Linux Enterprise Server 12 SP1
- SUSE Linux Enterprise Server 12 SP2
- CentOS 6.6
- CentOS 6.7

- CentOS 6.8
- CentOS 7.0
- CentOS 7.1
- CentOS 7.2
- CentOS 7.3

Product Legend

Acronym	Product/Option
VSR	Veritas System Recovery
VSR GRO	Veritas System Recovery Granular Restore Option
VSR-L	Veritas System Recovery for Linux
VSR-MS	Veritas System Recovery Management Solution, an Altris Solution
VSR-O	Veritas System Recovery 16 Option for BEWS. This is now known as VSR Basic Edition.
VSR-M	Veritas System Recovery Monitor
SSR	Symantec System Recovery
SSR GRO	Symantec System Recovery Granular Restore Option
SSR-L	Symantec System Recovery for Linux
SSR-MS	Symantec System Recovery Management Solution, an Altris Solution
SSR-O	Symantec System Recovery Option for BEWS. This is now known as SSR Basic Edition.
SSR-M	Symantec System Recovery Monitor
BESR	Backup Exec System Recovery
CPS	Backup Exec Continuous Protection Server

Contents

<u>Veritas System Recovery 16</u>	<u>Veritas System Recovery 16 Granular Restore, included with VSR.</u>	<u>Veritas System Recovery 16 Basic Edition</u>
<u>Veritas System Recovery 16 Monitor</u>	<u>Veritas System Recovery 16 Management Solution</u>	<u>Veritas System Recovery 16 for Linux</u>
<u>End-of-Life Information</u>		

Veritas System Recovery 16

Also requires:

- Microsoft .NET Framework 4.5.2: Required to run and use Veritas System Recovery.
- Internet Explorer 6.0 and later

Notes:

- By default, Windows 10 and Windows Server 2016 operating systems are installed with .NET Framework 4.6.
- If the required .NET Framework versions are not already installed, the Veritas System Recovery installation program automatically installs them on your computer.
- Veritas System Recovery 16 Management Solution (VSR-MS) cannot be installed on a domain controller. This is due to the underlying Notification Server component leveraging some local user accounts which do not exist on domain controllers.
- Restoring Dynamic Disks in the Veritas System Recovery (VSR) Veritas Recovery Environment (VRE). See the following article for additional support limitations. <http://www.veritas.com/docs/000037965>
- Windows 2003 or Vista is still supported on Symantec System Recovery 2013 R2/Symantec System Recovery 2013 R2 SP1/Symantec System Recovery 2013 R2 SP2.
- While Veritas System Recovery can be installed on Windows Server Core, it is an Agent only install. Windows Server Core does not support .NET and thus the UI cannot be installed. Windows Server Core is supported via a headless agent only. No push install is supported. Agents running on Windows Server Core cannot be managed by VSR-M. Windows firewall changes must take place before Veritas System Recovery can be managed remotely. See <http://www.veritas.com/docs/000100457> for more details about what must change in the Windows firewall to remotely manage Veritas System Recovery.
- Veritas System Recovery 16 Service Pack 2 no longer supports physical to virtual conversion for ESXi on a 32-bit operating system.

Operating System Compatibility

Citrix

Name	Version	Service Pack	CPU Architecture
XenServer [1] [2] [3]	5.0		x86-64
XenServer	5.5		x86-64
XenServer [1] [2] [3]	5.6	FP1	x86-64

XenServer [1] [2] [3]	6.1		x86-64

Citrix

Name	Version	Service Pack	CPU Architecture
XenServer	6.2	SP1	x86-64

1. Recovery points (v2i/iv2i) can be restored directly to a XenServer VM using the recovery disk.
2. VSR fully supports protecting Windows systems running in a XenServer VM.
3. VHD and VMDK files created by VSR must be imported to a full VM before they are converted to XenServer (XVA) format.

1. Support is for data volumes only.

Veritas System Recovery 16 Granular Restore, included with VSR.

Also requires:

- Internet Explorer version 6.0 or later
- .NET Framework 4.5.2.
- Microsoft Outlook 2007, Outlook 2010 32-bit or Outlook 2010 64-bit for Exchange restore.
- Limited support for Outlook 2013 in Veritas System Recovery 16. For more details please refer to <<http://www.veritas.com/docs/000023565>>
- SSR 2011 recovery points produced from an Exchange 2003 or Exchange 2007 server for Exchange restore. Cluster and Cluster Continuous Replication environments are not supported.
- While Veritas System Recovery can be used to protect individual servers in Exchange DAG Configuration and individual Mailboxes can be restored in GRO, DAG failover conditions are not supported.
- SSR 2011 recovery points produced from a SharePoint Server on a single machine for SharePoint restore. SharePoint farms are not supported.

Notes:

- Starting with Symantec System Recovery 2013 R2 SP3, GRO does not support SharePoint.
- GRO does not support Exchange 2016.
- By default, Windows 10 and Windows Server 2016 operating systems are installed with .NET Framework 4.6.
- Included with VSR Windows Editions only. GRO is not included with SSR Linux Editions.

Veritas System Recovery 16 Management Solution (VSR-MS) / Client Operating System Compatibility

- Microsoft has ended support for Windows XP: <http://windows.microsoft.com/en-in/windows/end-support-help> . VSR 16 is not supported on Windows XP. However, to facilitate migration and a smooth customer experience, it is supported to manage SSR 2013 installed on Windows XP clients with the VSR 16 Management Solution (VSR-MS). However, Veritas cannot provide fixes for any issues where the operating system (Windows XP) is found to be the root cause or where further investigation is required by Microsoft - this is due to the above end of support statement by Microsoft.

SUSE Linux Enterprise Server [1]	11	SP4	x86-32
SUSE Linux Enterprise Server [1]	11	SP4	x86-64

1. SUSE 11 SP4 is supported on Veritas System Recovery 16 SP1 Management Solution and later.

Veritas System Recovery 16 for Linux

Operating System Compatibility

Note:

- SUSE Linux Enterprise Desktop and Red Hat Enterprise Linux Desktop are not supported.
- Veritas System Recovery Linux (VSRL) does not support the backup and recovery of uEFI based computer. Please refer to the link below:
<<http://www.veritas.com/docs/000025187>>
- All standard kernel versions are supported for the Linux distributions that are listed.
- The binary drivers are already included for all standard kernels that are supported for the Linux distributions listed.
- For custom kernels (recompiled kernels), the installer builds and installs the custom snap driver for the running custom kernel during installation. The system must have the custom kernel headers on the system.
- Veritas System Recovery Disk creation for Linux is supported only if the default kernel is installed with the system ISO. You can also use this recovery disk to restore backups taken on updated kernels.
- VSR Linux can be run on a ESX/Esxi 4, ESX/Esxi 4.1, ESXi 5.0, ESXi 5.1, ESXi 5.5, ESXi 6.0, ESXi 6.5, Windows Server 2008 R2 Enterprise, Windows Server 2012, and Windows Server 2016 hypervisor virtual machine, provided the guest machine is running a supported operating system.

SUSE Linux Enterprise Server [2] [3]	12	SP1	x86-64
SUSE Linux Enterprise Server [2] [3]	12	SP2	x86-64

1. SUSE 11 SP4 is supported on Veritas System Recovery 16 SP1 and later.
2. SUSE 12, SUSE 12 SP1, and SP2 are supported on Veritas System Recovery 16 SP2 and later.
3. The Btrfs file system is not supported on Veritas System Recovery 16 SP2 and earlier.

The CentOS Project

Name	Version	Service Pack	CPU Architecture
CentOS	5.10		x86-32
CentOS	5.10		x86-64
CentOS	6.5		x86-32
CentOS	6.5		x86-64
CentOS [1]	6.6		x86-32
CentOS [1]	6.6		x86-64
CentOS [1]	6.7		x86-32
CentOS [1]	6.7		x86-64
CentOS [1]	6.8		x86-32
CentOS [1]	6.8		x86-64
CentOS [2]	7.0		x86-64
CentOS [2]	7.1		x86-64
CentOS [2]	7.2		x86-64
CentOS [2]	7.3		x86-64

1. CentOS 6.6, 6.7, 6.8 are supported on Veritas System Recovery 16 SP1 and later.
2. CentOS 7.0, 7.1, 7.2, 7.3 are supported on Veritas System Recovery 16 SP2 and later.

File System Compatibility

Note:

- Veritas System Recovery 16 Linux Edition only supports the listed file systems. Other file systems such as JFS, NSS, Reiser4, and Btrfs are not supported.

File System Compatibility

File System	Version	O/S
Ext2		All VSR-L supported Linux platforms
Ext3		All VSR-L supported Linux platforms
Ext4		All VSR-L supported Linux platforms
FAT16 [1]		All VSR and VSR-L supported platforms
FAT32		All VSR and VSR-L supported platforms
ReiserFS	3	All VSR-L supported Linux platforms
XFS		All VSRL-16 supported SLES/RHEL platforms

1. With 2 GB limit.

End-of-Life Information

EOL Notice: These operating systems, backward compatibility for restores, rolling upgrades, third-party software applications, and Veritas products are no longer supported for use with this version of Veritas System Recovery.

The Version EOL Started identifies the version of Veritas System Recovery that no longer provides the support and includes all subsequent releases. To provide Veritas with direct feedback, please use the Backup and Recovery Ideas forum located here: <<https://www.veritas.com/community/backup-and-recovery/ideas>>

Veritas System Recovery Server Operating System Compatibility

Name	Version	Service Pack	CPU Architecture	Version EOL Started
Windows 2003, 2003 R2, or Vista. [1]	All Versions and Editions	All Service Packs	x86-64	Symantec System Recovery 2013 R2 Service Pack 3

1. Technical support will provide partial support to customers using Symantec System Recovery on Windows 2003/2003 R2/Vista only if the issue is related to Symantec System Recovery.

Veritas System Recovery VMware Compatibility
