

Veritas Enterprise Vault.cloud Release Notes

Veritas is proud to announce the March 2016 release of the Enterprise Vault.cloud service suite. This monthly release continues the on-going theme of product improvement. The release will occur on **Wednesday March 16th** for the Sydney and Amsterdam data centers, and on **Thursday March 17th** for the US data centers.

Highlights:

- **Personal.cloud** – Correction of issue with tag updates when two tags have identical names. The correct tag is now updated.
- **Personal.cloud** – Correction of issue where certain special characters were not correctly decoded, which prevented the email from loading in the user interface.
- **O365 Sync**– Improvements made to sync operations including GUID mapping, to ensure that users can continue to be synced even if the mailbox is moved to another mailbox server within O365.

March Release Items

Component/Title	TFS	Description
O365 Sync	65444	Update made to sync to correctly disable archive accounts for users deleted in O365.
O365 Sync	57108	Correction to issue which caused some archive accounts to be disabled when there are 2 users in O365 with matching email addresses, 1 enabled and 1 deleted.
O365 Sync	61946	Improvements made to sync operations including GUID mapping, to ensure that users can continue to be synced even if the mailbox is moved to another mailbox server within O365.
Archive Administration	67513	Correction of issue that prevented the assignment of a 'Managed Tag' to users.
Archive Administration	72748	Correction of issue where the handling of email address updates could prevent users from logging in to Enterprise Vault.cloud services.
Personal.cloud	50883	Correction of issue where certain special characters were not correctly decoded, which prevented the email from loading in the user interface.
Personal.cloud	61094	Correction of issue with tag updates when two tags have identical names. The correct tag is now updated.

Import	46018,53663,67521,68154 71243	Improvements have been made to our import processing.
