

2U12 49TB Storage Shelf Deployment Plan for NetBackup 5230 Appliances

What you need to know and where to go for more information

1 Hardware installation

This deployment plan applies only to NetBackup 5230 Appliance environments.

You can add 2U12 49TB storage shelves to operational NetBackup 5230 Appliances that have zero to three existing storage shelves.

- NetBackup 5230 appliances with appliance software version 3.0 and later support the use of the 2U12 49TB Storage Shelf.
- A software patch allows the installation of 2U12 49TB storage shelves to a NetBackup 5230 Appliance running appliance version 2.7.3. The patch is available from the following article. https://www.veritas.com/support/en_US/article.000116670

For NetBackup 5230 Appliances without any storage shelves, you receive the following:

- One Expansion Storage Kit with additional components for installation inside the appliance. Contact Veritas Appliance Services to arrange for kit installation.
- Two SAS2 to SAS3 cables for connection between the appliance and a 2U12 49TB storage shelf.
- Two SAS3 cables for connection between 2U12 49TB storage shelves.
- Accessory boxes that contain rails, mounting hardware, power cables, and a bezel.

For NetBackup 5230 Appliances with at least one existing storage shelf, you receive the following depending on your purchase:

- Two SAS2 to SAS3 cables for connection between a 3U16 36TB shelf and a 2U12 49TB shelf.
- Two SAS3 cables for connection between 2U12 49TB storage shelves.
- Accessory boxes that contain rails, mounting hardware, power cables, and a bezel.

The *NetBackup 5230 Appliance Hardware Installation Guide* provides the following information:

- Installing and connecting new storage shelves to your appliance.
 - Adding the disk space of the new storage shelves to your configuration.
- Download this guide from the NetBackup Appliance Documentation website at https://www.veritas.com/support/en_US/58991/appliance-docs.html

2 Additional information or assistance

The following website contains additional resources to help you with deployment and operation.

https://www.veritas.com/support/en_US/58991/appliance-docs.html includes:

- NetBackup configuration, upgrade, operation, and administration guides
- NetBackup Appliance installation videos
