

## Veritas AdvisorMail Release Notes

Veritas is proud to announce the December 2016 release of the AdvisorMail service suite. This monthly release continues the on-going theme of product improvement. The release occurs on **Friday December 16<sup>th</sup>**.

### Highlights:

- **Support for PGP encrypted Bloomberg content** - AdvisorMail is now able to process PGP encrypted Bloomberg content. Information about configuring the Bloomberg settings will be available [here in the AdvisorMail User Guide](#) from Monday December 19th.
- **Support for archiving of Office 365 messages encrypted with Microsoft's Azure Rights Management Services (RMS)** – AdvisorMail now supports the archiving of Office 365 messages that are encrypted with RMS. Note: Office 365 journaling needs to be configured to provide the decrypted content for archiving.
- **Support for modern browsers** – AdvisorMail is now supported on the current versions of Chrome, Firefox, Safari, Internet Explorer 11, and Edge.
