Veritas^{TM} Resiliency Platform 1.2 Hardware and Software Compatibility List

VERITAS

Contents

Legend

The following table indicates the legend used in this document.

Legend	
S	Supported
■	Not Supported/Applicable

Virtual Appliance Compatibility Matrix

Virtualization Technology	Version
VMware	vCenter Server 5.1, 5.5, 6.0 / ESXi 5.1, 5.5, 6.0
Hyper-V	Windows Server 2012 Windows Server 2012 R2

Virtual Machine Disaster Recovery Compatibility Matrix

Virtualization Technology	Version	Replication Technology					
		EMC SRDF	NetApp SnapMirror	Hyper- V Replica	Hitachi True Copy/Hitachi Universal Replicator	Recover Point	HPE 3PAR Remote Copy
		Array software / Vendor component API/ CLI – EMC Solution Enabler 7.x Storage Model - Symmetrics DMX, VMAX	Array software / Vendor component API/ CLI - ONTAP 7.x and above (Netapp 7 mode), ONTAP 8.2.1 and above (Netapp cluster mode) Storage Model - Netapp FAS series		Array software / Vendor component API/ CLI - HORCM - 01-25-03 , Hi-Command - 7.x and above Storage Model - Hitachi USP, VSP	Array software / Vendor component API/ CLI – RecoverPoint V4.1 Storage Model – VMX/Symmetrix, VNX/Clariion	Array software / Vendor component API/ CLI – HPE 3PAR Remote Copy V3.1 and 3.2
VMware	vCenter Server 5.1, 5.5, 6.0 / ESXi 5.1, 5.5, 6.0	S	S	■	S	S	S
Hyper-V	Windows Server 2012 R2	S	■	S	S	S	S

Notes:

The EMC SRDF replication technology is supported with Sync and Async modes.

The NetApp SnapMirror replication technology is supported with Async mode only.

The HPE 3PAR Remote Copy replication technology is supported with Async mode only.

VMware HA and Microsoft Failover Cluster (MSFoC) environments are supported.

Only the NFS storage exported from NetApp arrays is supported.

VPLEX storage is not supported.

Application Disaster Recovery Compatibility Matrix

Applications	Version	EMC SRDF Array software / Vendor component API/ CLI – EMC Solution Enabler 7.x Storage Model - Symmetrics DMX, VMAX	NetApp SnapMirror Array software / Vendor component API/ CLI - ONTAP 7.x and above (Netapp 7 mode), ONTAP 8.2.1 and above (Netapp cluster mode) Storage Model - Netapp FAS series	EMC RecoverPoint Array software / Vendor component API/ CLI – RecoverPoint V4.1 Storage Model – VMX/Symmetrix, VNX/Clariion	Platform Support			
					Under Physical, VMware and Hyper-V environments			
					RHEL 6.5, 6.6, 6.7	RHEL 7.0	Windows 2008 R2 SP1	Windows 2012 R2
Oracle RDBMS	11g r2	S	S	S	S	S		
	12C r1	S	S	S	S	S		
Microsoft SQL Server	2012	S		S			S	S
	2014	S		S			S	S
Custom App		S	S	S	S	S	S	S

Notes:

The EMC SRDF replication technology is supported with Sync and Async modes.

Oracle RAC is not supported.

Oracle 12C is supported in traditional mode.

MSSQL 2012 and MSSQL 2014 are supported without AlwaysOn.

For applications configured in Microsoft Failover Clustering environment, all application data should reside on the cluster shared volume (CSV).

The NetApp SnapMirror replication technology is not supported with application configured on the Windows platform.

The NetApp SnapMirror replication technology is supported with Async mode only.

VMware HA and Microsoft Failover Cluster (MSFoC) enironments are supported.

Only the NFS storage exported from NetApp arrays is supported.

Minimum Powershell version supported on Windows Servers is 3.0

InfoScale Support Matrix

- The Veritas InfoScale Operations Manager 7.0 (VIOM 7.0) server is supported for both Linux and Windows.
- The Veritas InfoScale Operations Manager 7.0 (VIOM 7.0) server is also supported in standalone and CMS-HA configuration.
- The Cluster Server (VCS) 6.0 and above is supported on AIX, Linux, Solaris, and Windows operating systems.
- All VCS supported configurations are supported for both Application and Replication technology.
- For VCS configuration, only failover service group configuration is supported.
- The GCO failover policy must be manual.

Browser Compatibility Matrix

Browser	Versions	Comments
Microsoft Internet Explorer	10, or later	**JavaScipt**: Enabled **Cookies**: Enabled
Mozilla Firefox	33.x, or later	**JavaScipt**: Enabled **Cookies**: Enabled
Google Chrome	38.x, or later	**JavaScipt**: Enabled **Cookies**: Enabled
Safari	5.1 or later on Mac OS X	**JavaScipt**: Enabled **Cookies**: Enabled
