Desktop Agent for Windows

Desktop Agent Matrix

OS Version	Platform	Symantec DLO 7.6	Note
Windows XP SP3	x86	X	
Windows XP SP2	x64	X	1
Windows Vista SP2	x86	X	
Windows Vista SP2	x64	X	2
Windows 7	x86	X	
Windows 7	x64	X	2
Windows 7 SP1	x86	X	
Windows 7 SPI	x64	X	2
Windows 8	x86	X	
Windows 8	x64	X	2
Windows 8.1	x86	X	
Windows 8.1	x64	X	2

The DLO Desktop Agent is not supported on Microsoft Server operating systems such as Windows 2012, 2012 R2; Windows 2008, 2008 R2; Windows 2003, Windows Storage Server 2003, and Windows Server 2000.

Note 1: The Desktop Agent will install and run on 64-bit platform in 32-bit compatibility mode.

Note 2: 64-bit DLO Agent is installed on 64-bit Windows desktops, if and only if the Agents machine's default mail client is 64-bit Microsoft Outlook 2010. In all other cases, the Desktop Agent will install and run on 64-bit platform in 32-bit compatibility mode.

Note 3: The default installation path of the Agent during installation in 64-bit machines remains *C:\Program Files (x86)\Symantec\Symantec DLO\DLO* irrespective of 32-bit or 64-bit DLO Agent being installed. Users can install the DLO Agent to other folders of their choice by changing the path during installation.

Note 4: Symantec DLO 7.6 Agents are supported on Windows 8 desktop OS only, but not on Windows RT.

Desktop Agent for MAC

Desktop Agent Matrix

MAC OS Version	Platform	Symantec DLO 7.6	Note
10.7	32-bit	X	
10.7	64-bit	X	
10.8	64-bit	X	
10.9	64-bit	X	
10.10	64-bit	X

SQL Standard Edition 2012 (x64)	X
SQL Express Edition 2012 (x86)	X
SQL Express Edition 2012 (x64)	X

DLO Cluster Support

Symantec DLO 7.6 has cluster support for DLO administration service.

Vendor	Product	OS Version	Platform	Symantec DLO 7.6	Note
Microsoft	MSCS	Windows 2003 Server SP2	x86	X	
Microsoft	MSCS	Windows 2003 Server SP2	x64	X	
Microsoft	MSCS	Windows 2003 R2 Server SP2	x86	X	
Microsoft	MSCS	Windows 2003 R2 Server SP2	x64	X	
Microsoft	MSCS	Windows 2008 Server SP2	x86	X	
Microsoft	MSCS	Windows 2008 Server SP2	x64	X	
Microsoft	MSCS	Windows 2008 R2 Server SP1	x64	X	
Microsoft	MSCS	Windows 2012 Server	x64	X	
Microsoft	MSCS	Windows 2012 R2 Server	x64	X	

DLO UPGRADE SUPPORT

Version	Symantec DLO 7.6
Symantec DLO 7.0, 7.5, 7.5 SP1	X
BackupExec-DLO 2010 R3	X
NetBackup DLO 6.1 MP7	X

Note 1: For any existing customers with previous release of DLO (NetBackup DLO or BackupExec DLO) apart from the versions mentioned above, it will be a stepped upgrade support. That is, customers should first upgrade the existing version of DLO to Symantec DLO 7.0, and then upgrade to Symantec DLO 7.6

Symantec Product Compatibility

Symantec Products

Product Name	Qualified Version	OS Platform	Notes
