6. **UPGRADES/CROSS-GRADES.** Symantec reserves the right to require that any upgrades (if any) of the Licensed Software may only be obtained in a quantity equal to the number indicated on the applicable License Instrument. An upgrade to an existing license shall not be deemed to increase the number of licenses which You are authorized to use. Additionally, if You upgrade a Licensed Software license, or purchase a Licensed Software license listed on the applicable License Instrument to cross-grade an existing license (i.e. to increase its functionality, and/or transfer it to a new operating system, hardware tier or licensing meter), then Symantec issues the applicable Licensed Instrument based on the understanding that You agree to cease using the original license. Any such license upgrade or cross-grade is provided under Symantec's policies in effect at the time of order. This License Agreement does not separately license You for additional licenses beyond those which You have purchased, and which have been authorized by Symantec as indicated on the applicable License Instrument.

7. **LIMITED WARRANTY.**

7.1. **MEDIA WARRANTY.** If Symantec provides the Licensed Software to You on tangible media, Symantec warrants that the magnetic media upon which the Licensed Software is recorded will not be defective under normal use, for a period of ninety (90) days from delivery. Symantec will replace any defective media returned to Symantec within the warranty period at no charge to You. The above warranty is inapplicable in the event the Licensed Software media becomes defective due to unauthorized use of the Licensed Software. **THE FOREGOING IS YOUR SOLE AND EXCLUSIVE REMEDY FOR SYMANTEC'S BREACH OF THIS WARRANTY.**

7.2. **PERFORMANCE WARRANTY.** Symantec warrants that the Licensed Software, as delivered by Symantec and when used in accordance with the Documentation, will substantially conform to the Documentation for a period of ninety (90) days from delivery. If the Licensed Software does not comply with this warranty and such non-compliance is reported by You to Symantec within the ninety (90) day warranty period, Symantec will do one of the following, selected at Symantec's reasonable discretion: either (i) repair the Licensed Software, (ii) replace the Licensed Software with software of substantially the same functionality, or (iii) terminate this License Agreement and refund the relevant license fees paid for such non-compliant Licensed Software. The above warranty specifically excludes defects resulting from accident, abuse, unauthorized repair, modifications or enhancements, or misapplication. **THE FOREGOING IS YOUR SOLE AND EXCLUSIVE REMEDY FOR SYMANTEC'S BREACH OF THIS WARRANTY.**

8. **WARRANTY DISCLAIMERS.** TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE WARRANTIES SET FORTH IN SECTIONS 7.1 AND 7.2 ARE YOUR EXCLUSIVE WARRANTIES AND ARE IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE, AND NONINFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS. SYMANTEC MAKES NO WARRANTIES OR REPRESENTATIONS THAT THE LICENSED SOFTWARE, CONTENT UPDATES OR UPGRADES WILL MEET YOUR REQUIREMENTS OR THAT OPERATION OR USE OF THE LICENSED SOFTWARE, CONTENT UPDATES, AND UPGRADES WILL BE UNINTERRUPTED OR ERROR-FREE. YOU MAY HAVE OTHER WARRANTY RIGHTS, WHICH MAY VARY FROM STATE TO STATE AND COUNTRY TO COUNTRY.

9. **LIMITATION OF LIABILITY.** TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW AND REGARDLESS OF WHETHER ANY REMEDY SET FORTH HEREIN FAILS OF ITS ESSENTIAL PURPOSE, IN NO EVENT WILL SYMANTEC OR ITS LICENSORS, RESELLERS, SUPPLIERS OR AGENTS BE LIABLE TO YOU FOR (i) ANY COSTS OF PROCUREMENT OF SUBSTITUTE OR REPLACEMENT GOODS AND SERVICES, LOSS OF PROFITS, LOSS OF USE, LOSS OF OR CORRUPTION TO DATA, BUSINESS INTERRUPTION, LOSS OF PRODUCTION, LOSS OF REVENUES, LOSS OF CONTRACTS, LOSS OF GOODWILL, OR ANTICIPATED SAVINGS OR WASTED MANAGEMENT AND STAFF

IN NO CASE SHALL SYMANTEC'S LIABILITY EXCEED THE FEES YOU PAID FOR THE LICENSED SOFTWARE GIVING RISE TO THE CLAIM. NOTHING IN THIS AGREEMENT SHALL OPERATE SO AS TO EXCLUDE OR LIMIT SYMANTEC'S LIABILITY TO YOU FOR DEATH OR PERSONAL INJURY ARISING OUT OF NEGLIGENCE OR FOR ANY OTHER LIABILITY WHICH CANNOT BE EXCLUDED OR LIMITED BY LAW. THE DISCLAIMERS AND LIMITATIONS SET FORTH ABOVE WILL APPLY REGARDLESS OF WHETHER OR NOT YOU ACCEPT THE LICENSED SOFTWARE, CONTENT UPDATES OR UPGRADES.

10. **MAINTENANCE/SUPPORT.** Symantec has no obligation under this License Agreement to provide maintenance/support for the Licensed Software. Any maintenance/support purchased for the Licensed Software is subject to Symantec's then-current maintenance/support policies.

11. **SOFTWARE EVALUATION.** If the Licensed Software is provided to You for evaluation purposes and You have an evaluation agreement with Symantec for the Licensed Software, Your rights to evaluate the Licensed Software will be pursuant to the terms of such evaluation agreement. If You do not have an evaluation agreement with Symantec for the Licensed Software and if You are provided the Licensed Software for evaluation purposes, the following terms and conditions shall apply. Symantec grants to You a nonexclusive, temporary, royalty-free, non-assignable license to use the Licensed Software solely for internal non-production evaluation. Such evaluation license shall terminate (i) on the end date of the pre-determined evaluation period, if an evaluation period is pre-determined in the Licensed Software or (ii) sixty (60) days from the date of Your initial installation of the Licensed Software, if no such evaluation period is pre-determined in the Licensed Software ("Evaluation Period"). The Licensed Software may not be transferred and is provided "AS IS" without warranty of any kind. You are solely responsible to take appropriate measures to back up Your system and take other measures to prevent any loss of files or data. The Licensed Software may contain an automatic disabling mechanism that prevents its use after a certain period of time. Upon expiration of the Licensed Software Evaluation Period, You will cease use of the Licensed Software and destroy all copies of the Licensed Software. All other terms and conditions of this License Agreement shall otherwise apply to Your evaluation of the Licensed Software as permitted herein.

12. **U.S. GOVERNMENT RESTRICTED RIGHTS.** The Licensed Software is deemed to be commercial computer software as defined in FAR 12.212 and subject to restricted rights as defined in FAR Section 52.227-19 "Commercial Computer Licensed Software - Restricted Rights" and DFARS 227.7202, "Rights in Commercial Computer Licensed Software or Commercial Computer Licensed Software Documentation", as applicable, and any successor regulations. Any use, modification, reproduction release, performance, display or disclosure of the Licensed Software by the U.S. Government shall be solely in accordance with the terms of this License Agreement.

13. **EXPORT REGULATION.** You acknowledge that the Licensed Software and related technical data and services (collectively "Controlled Technology") are subject to the import and export laws of the United States, specifically the U.S. Export Administration Regulations (EAR), and the laws of any country where Controlled Technology is imported or re-exported. You agree to comply with all relevant laws and will not export any Controlled Technology in contravention to U.S. law nor to any prohibited country, entity, or person for which an export license or other governmental approval is required. All Symantec products, including the Controlled Technology are prohibited for export or re-export to Cuba, North Korea, Iran, Syria and Sudan and to any country subject to relevant trade sanctions. You hereby agree that You will not export or sell any Controlled Technology for use in connection with chemical, biological, or nuclear weapons, or missiles, drones or space launch vehicles capable of delivering such weapons.

16.2. **COMPLIANCE WITH APPLICABLE LAW.** You are solely responsible for Your compliance with, and You agree to comply with, all applicable laws, rules, and regulations in connection with Your use of the Licensed Software.

16.3. **AUDIT.** An auditor, selected by Symantec and reasonably acceptable to You, may, upon reasonable notice and during normal business hours, but not more often than once each year, inspect Your records and deployment in order to confirm that Your use of the Licensed Software complies with this License Agreement and the applicable License Instrument. Symantec shall bear the costs of any such audit, except where the audit demonstrates that the Manufacturer's Suggested Reseller Price (MSRP) value of Your non-compliant usage exceeds five percent (5%) of the MSRP value of Your compliant deployments. In

such case, in addition to purchasing appropriate licenses for any over-deployed Licensed Software, You shall reimburse Symantec for the auditor's reasonable actual fees for such audit.

16.4. **GOVERNING LAW; SEVERABILITY; WAIVER.** If You are located in North America or Latin America, this License Agreement will be governed by the laws of the State of California, United States of America. If You are located in China, this License Agreement will be governed by the laws of the Peoples Republic of China. Otherwise, this License Agreement will be governed by the laws of England. Such governing laws are exclusive of any provisions of the United Nations Convention on Contracts for Sale of Goods, including any amendments thereto, and without regard to principles of conflicts of law. If any provision of this License Agreement is found partly or wholly illegal or unenforceable, such provision shall be enforced to the maximum extent permissible, and remaining provisions of this License Agreement shall remain in full force and effect. A waiver of any breach or default under this License Agreement shall not constitute a waiver of any other subsequent breach or default.

16.5. **THIRD PARTY PROGRAMS.** This Licensed Software may contain third party software programs ("Third Party Programs") that are available under open source or free software licenses. This License Agreement does not alter any rights or obligations You may have under those open source or free software licenses. Notwithstanding anything to the contrary contained in such licenses, the disclaimer of warranties and the limitation of liability provisions in this License Agreement shall apply to such Third Party Programs.

16.6. **CUSTOMER SERVICE.** Should You have any questions concerning this License Agreement, or if You desire to contact Symantec for any reason, please write to: (i) Symantec Enterprise Customer Care, 555 International Way, Springfield, Oregon 97477, U.S.A., (ii) Symantec Enterprise Customer Care Center, PO BOX 5689, Dublin 15, Ireland, or (iii) Symantec Enterprise Customer Care, 1 Julius Ave, North Ryde, NSW 2113, Australia.

16.7. **ENTIRE AGREEMENT.** This License Agreement and any related License Instrument are the complete and exclusive agreement between You and Symantec relating to the Licensed Software and supersede any previous or contemporaneous oral or written communications, proposals, and representations with respect to its subject matter. This License Agreement prevails over any conflicting or additional terms of any purchase order, ordering document, acknowledgement or confirmation or other document issued by You, even if signed and returned. This License Agreement may only be modified by a License Instrument that accompanies or follows this License Agreement.

17. **ADDITIONAL TERMS AND CONDITIONS.** Your use of the Licensed Software is subject to the terms and conditions below in addition to those stated above.

17.1 **DEFINITIONS.**

17.1.1 Per Server Licensing: A Server is defined as an individual computer, acting as a service or resource provider to client computers by sharing the resources within the network infrastructure. A Server can run server software for other computers or devices.

17.1.2 Per Storage Device Licensing: A Storage Device is defined as an individual disk, tape, CD, Optical disk, or DVD device, acting as a complete stand-alone storage unit, or a storage unit within a multi-device disk or tape based storage system, attached to a computer for storing information.

17.1.3 Per Domain Controller Licensing: A Domain Controller is defined as a server on a Microsoft Windows-based network that is responsible for allowing host access to Windows domain resources, storing user account information, user authentication, and security policy enforcement for a Windows domain.

17.1.4 Per Node Licensing: A Node/IP is defined as unique network or machine addresses, such as an internet protocol or MAC address, that is monitored by the Software.

17.1.5 Per Mailbox Licensing: A mailbox is defined as a unique mail receptacle on a Microsoft Exchange server.

17.2 **USE LEVELS.** For Backup Exec, Backup Exec for Windows Small Business Server and Backup Exec QuickStart Edition, these additional license provisions shall apply:

17.2.1 You may use each individual copy of the Licensed Software and related documentation on a single active Server to perform data backup regardless of whether the Server is a physical or virtual Server, or on a single active Server as part of a series of clustered Servers at any one time provided that a separate licensed copy of Licensed Software is installed on each active Server within the cluster. For passive nodes in cluster a copy of the software is required only to be installed and not licensed.

17.2.2 You may use the Licensed Software (i) on a single active Windows-based Server, or (ii) a single active Windows-based Server running Backup Exec for the purpose of creating a Continuous Protection Server as a destination for protected data. Regardless of whether the Server is a single active physical Server, or a single active Server as part of a series of clustered Servers at any one time, a separately licensed copy of the Licensed Software is required to be installed on each active Server within the cluster.

17.2.3 You may use each individual licensed copy of any serialized database agent, remote agent or product option on a single active Server, whether physical or virtual, at any one time, and can enable that individual Server to be protected by any one Server running Backup Exec by installing the agent or option license key on any one Server running Backup Exec at any time. Notwithstanding the foregoing, if a serialized database agent, remote agent or product option is expressly set forth below in section 17.2 with different licensing provisions, then such different licensing provisions shall apply.

17.2.4 You may use each individual licensed copy of the Backup Exec Agent for Windows Systems to protect a single Windows Server or Node, whether physical or virtual, using both the associated Remote Agent for Windows Systems, and the associated Continuous Protection Agent, at any one time over the network.

17.2.5 For the purpose of enabling system access in order to protect a single active NetWare, Mac, Linux or Unix Server or Node, whether physical or virtual, at any one time over a network, You may use an individual licensed copy of the Backup Exec Remote Agent for NetWare Servers, or the Backup Exec Agent for Mac Systems, or the Backup Exec Remote Agent for Linux or Unix Servers. You may also use one associated Backup Exec Agent for Windows Systems, or Agent for Linux or Unix Servers, which is enabled per serialized Backup Exec database agent or option during installation, to protect the specific Server or Node, whether physical or virtual, where the serialized database agent or option is installed.

17.2.6 You may use an unlimited number of the Backup Exec Intelligent Disaster Recovery Option (IDR) to enable IDR for all physical or virtual Servers or Nodes protected over a network from the specific Server running Backup Exec where the IDR option is installed.

17.2.7 You may use the Backup Exec Advanced Open File Option on any system that has been licensed for the Agent for Windows Systems to enable open file protection for all physical or virtual Servers or Nodes protected over a network from the specific Server running Backup Exec.

17.2.8 You may use each individual licensed copy of the Backup Exec Central Admin Server Option (CASO) on a single active Backup Exec Media Server, whether physical or virtual, at any one time.

17.2.9 You may use each individual licensed copy of the Backup Exec Advanced Disk Backup Option (ADBO) on a single active Backup Exec Media Server, whether physical or virtual, at any one time.

17.2.10 You may use each individual licensed copy of the Backup Exec Agent for SharePoint on a single active Server at any one time to enable protection for one complete logical instance of SharePoint Server, which may be distributed across multiple physical or logical servers per manufacturer recommendations, from the specific Server running Backup Exec where the serialized SharePoint option is installed. Alternately, You may use each individual licensed copy of the Backup Exec Agent for SharePoint to protect a single server SharePoint Farm. For distributed farm environments, each additional SharePoint server in the SharePoint farm (Web Front End, Index, Query, additional SharePoint database) requires an additional Agent for Windows Systems (AWS) license.

17.2.11 You may use each individual copy of the Backup Exec Active Directory Recovery Agent on a single active Server running Backup Exec, whether physical or virtual, at any one time. An individual licensed copy of the Active Directory Recovery Agent is required for each Domain Controller to enable granular recovery from the specific Server running Backup Exec where the Active Directory Recovery Agent is installed.

17.2.12 You may use each individual licensed copy of the Agent for Enterprise Vault on a single active Server, whether physical or virtual, at any one time. For backup and recovery of an Enterprise Vault installation, an individual licensed copy of the Agent for Enterprise Vault is required for each Enterprise Vault site, which may be distributed across multiple physical or logical servers. For a distributed environment, each additional server hosting an Enterprise Vault entity (e.g. Vault Store, Fingerprint Database, Index Location, etc.) requires an additional Agent for Windows Systems (AWS) license. For the purposes of Migration, a single copy of the Agent for Enterprise Vault is sufficient on each Media Server utilized to migrate Enterprise Vault data to tape.

17.2.13 You may connect to any server running Backup Exec an unlimited number of individual "stand alone" Storage Devices (e.g., disk, tape drives, optical drives, etc.) OR one single Storage Device WITHIN one physical or virtual tape autoloader, library, robotic library or robotic media changer. Tape autoloaders, libraries, robotic libraries or robotic media changers with two or more Storage Devices require a separate Library Expansion Option license for EACH additional drive beyond the first backup drive in each device.

17.2.14 You may use each individual licensed copy of the Backup SAN Shared Storage Option (SAN SSO) on a single active Server running Backup Exec, whether physical or virtual, at any one time. An individual licensed copy of SAN SSO is required for any Server running Backup Exec that is attached to the Storage Area Network (SAN) and sending backup data to any shared storage device (tape or disk, or NDMP appliance) on the SAN. You may enable multiple Servers running Backup Exec on a SAN to use common Library Expansion Option (LEO), VTL Unlimited Drive Option (VUDO) or NDMP Option license keys at any one time provided that a separate licensed copy of the SAN SSO Option is installed on each Server running Backup Exec that is sharing the LEO, VUDO or NDMP license keys.

17.2.15 You may use each individual licensed copy of the Backup Exec NDMP Option on a single active Server running Backup Exec, whether physical or virtual, at any one time. An individual licensed copy of the NDMP Option is required for EACH NDMP server appliance attached to a single active Server running Backup Exec.

17.2.16 You may use up to five (5) of the Backup Exec Desktop and Laptop Options (DLO), which are included with Backup Exec, to enable protection of user data on any combination of up to five (5) desktop or laptop Nodes connected to a single active Server running Backup Exec, whether physical or virtual, at any one time.

17.2.17 You may use each individual licensed copy of the Backup Exec Desktop and Laptop Option (DLO) on a single active Server running Backup Exec, whether physical or virtual, at any one time, and can enable the protection of specified user data on the licensed number of desktop and/or laptop Nodes connected to a Server running Backup Exec by installing the associated DLO agent on each licensed desktop and/or laptop.

17.2.18 You may use the Agent for Windows Systems on Windows XP workstations to protect an unlimited number of Nodes connected to the Server running Backup Exec.

17.2.19 You may use an unlimited number of the Backup Exec Remote Administration Utility to remotely administer an unlimited number of Servers running Backup Exec.

17.2.20 You may use an unlimited number of the Backup Exec Microsoft Operations Manager (MOM) Management Pack to centrally monitor Backup Exec on an unlimited number of Servers.

17.2.21 You may use a single Backup Exec Agent for VMware Virtual Infrastructure (AVVI) license to protect a single VMware ESX host server at any one time, and such host server may protect an unlimited number of guest virtual machines that reside on the licensed VMware ESX host system. Each VMware ESX host server that manages the guest virtual machines requires a Backup Exec AVVI license regardless of the specific VMware ESX host on which the guest virtual machines are running. The Backup Exec AVVI license allows for additional Backup Exec Agent for Windows System (AWS), Remote Agent for NetWare Servers (RANW), and Agent for Remote Linux and Unix Servers (RALUS) to be used in each guest virtual machine running on a VMware ESX host server that has been licensed with a Backup Exec AVVI license without purchasing additional licenses for those Agents. Other applications running in guest virtual machines require separately licensed Backup Exec Agents for such applications.

17.2.22 You may use a single Backup Exec Agent for Microsoft Hyper-V (AMHV) license to protect a single Microsoft Hyper-V host at any one time, and such host server may protect an unlimited number of guest virtual machines that reside on the licensed Hyper-V host system. Each Microsoft Hyper-V host that manages the guest virtual machines requires a Backup Exec AMHV license. The Backup Exec AMHV license allows for additional Backup Exec Agent for Windows System (AWS), Remote Agent for NetWare Servers (RANW), and Agent for Remote Linux and Unix Servers (RALUS) to be used in each guest virtual machine running on a Microsoft Hyper-V host that has been licensed with a Backup Exec AMHV license without purchasing additional licenses for those Agents. Other applications running in guest virtual machines require separately licensed Backup Exec Agents for such applications.

17.2.23 You may use each individual licensed copy of the Backup Exec Remote Media Agent for Linux Servers on a single active Server running Backup Exec, whether physical or virtual, at any one time.

17.2.24 You may use each individual licensed copy of the Backup Exec Storage Provisioning Option (SPO) on a single active Server running Backup Exec, whether physical or virtual, at any one time.

17.2.25 You may use each individual copy of the Backup Exec Agent for Oracle on Windows or Linux Servers on a single active Server running Oracle or Oracle RAC, whether physical or virtual, at any one time. An individual licensed copy of Backup Exec Agent for Oracle on Windows or Linux Servers is required for each separate instance of Oracle or Oracle RAC to be protected in an environment.

17.2.26 You may use each individual licensed copy of the Backup Exec Deduplication Option on a single active Server running Backup Exec, whether physical or virtual, at any one time.

17.2.27 You may use each individual licensed copy of the Backup Exec VTL Unlimited Drive Option (VUDO) per Server running Backup Exec, whether physical or virtual, at any one time.

17.2.28 You may use each individual licensed copy of the Backup Exec File System Archiving Option a single active File Server protected by Backup Exec, at any one time. Remote file servers will require the purchase of an Agent for Windows Systems (AWS) agent to function.

17.2.29 You may use each individual licensed copy of the Backup Exec Exchange Mailbox Archiving Option (BEAO) on a single active Server running Backup Exec, whether physical or virtual, and can enable archiving of specified user mailbox data up to the licensed mailbox count.

17.3 You may only use the Backup Exec Intelligent Disaster Recovery Option (IDR) on Your devices running Microsoft Windows operating system software, provided that the primary purpose of such devices is to provision personal computers running Microsoft Windows operating system software. Additionally, You may only use IDR to perform the following tasks: (1) for provisioning of devices preinstalled with Microsoft Windows operating system software by parties who are authorized Microsoft OEMs operating under a valid and active OEM license agreement with Microsoft Licensing, G.P., or (2) for maintaining on a server-class machine images of the Windows operating system which are to be preinstalled on computers where the maintenance consists of applying security updates, software patches or OEM customizations.
