Symantec shall bear the costs of any such audit, except where the audit demonstrates that the Manufacturer's Suggested Reseller Price (MSRP) value of Your non-compliant usage exceeds five percent (5%) of the MSRP value of Your compliant deployments. In such case, in addition to purchasing appropriate licenses for any over-deployed Licensed Software, You shall reimburse Symantec for the auditor's reasonable actual fees for such audit.

If any provision of this License Agreement is found partly or wholly illegal or unenforceable, such provision shall be enforced to the maximum extent permissible, and remaining provisions of this License Agreement shall remain in full force and effect. A waiver of any breach or default under this License Agreement shall not constitute a waiver of any other subsequent breach or default.

16.5. **THIRD PARTY PROGRAMS.** This Licensed Software may contain third party software programs ("Third Party Programs") that are available under open source or free software licenses. This License Agreement does not alter any rights or obligations You may have under those open source or free software licenses. B. If the Software License used for the Cold DR License is licensed on a per Server, Client or NAS Device Tier basis the Cold DR License may be deployed on a Server, Client, or NAS Tier equal to, greater than or less than the authorized Server, Client, or NAS Tier for the license of the Licensed Software.

C. Your right to use the Cold DR Licenses shall automatically terminate if You fail to stay current on maintenance/support for the underlying Licensed Software. You are not provided separate maintenance/support for Cold DR Licenses, but may keep the installed Cold DR Licenses current to the latest version using the maintenance for the applicable Licensed Software.

D. Except as set forth in Section 17.3.E below, You may not use Cold DR Licenses simultaneously when You use the production license of the Licensed Software. The Cold DR Equipment on which Cold DR Licenses are deployed must be turned off or remain idle except for: (i) use in the case of an actual Disaster; or (ii) use in the case when a production server in a cluster

of servers fails and production work is “failed-over” to a designated cold or idle server that is part of the cluster in conjunction with an actual Disaster or as part of a test.

E. You may use Cold DR Licenses for Failover Readiness Testing as reasonable and necessary for up to twelve (12) days per calendar year.

F. In the event of an actual Disaster, the Cold DR Policy may be used in production for a period of up to ninety (90) successive calendar days. At the conclusion of such period, if the production site has not been restored, You must request Symantec in writing for a transfer of the production license to the DR Site in accordance with Symantec's then-current transfer policies. Fees may be applicable to any such transfers.

17.4 NetBackup Master Server and Media Server. If the Licensed Software You have licensed includes NetBackup software licensed on a per Master Server or per Media Server basis, such Master/Media Server license includes a per Client license for the applicable Server which may be used solely to provide backup support for NetBackup application files and Operating System files only. An additional Client license shall not be required to protect the local NetBackup application residing on the applicable Server. You may not use such included Client to provide backup support for any other application data or any content. In order to provide backup support for such other application data or content, You must obtain the applicable Client license for the applicable Server.

17.5 NetBackup Enterprise Client. If the Licensed Software You have licensed includes NetBackup Enterprise Client it may be possible to run and operate more than one (1) single instance of such Licensed Software on the Server or Client on which the Licensed Software is installed and licensed. If the Licensed Software You have licensed includes NetBackup database and application agent software, it may be possible to run and operate more than one (1) single instance of such Licensed Software on the Server or Client on which the Licensed Software is installed and licensed. In such case, except as otherwise specified herein, only a NetBackup Application and Database Pack License licensed on a Per Tiered Client basis shall be required for the applicable Server or Client. With such a NetBackup Application and Database Pack License licensed on a Per Tiered Client basis, You shall not be required to acquire the number of licenses per each instance of the database/applications agent software running on the applicable Server or Client.

17.7 NetBackup Enterprise Client – SAN Media Server. If the Licensed Software You have licensed includes NetBackup Enterprise Client licensed for a Storage Area Network (“SAN”) Media Server, such Media Servers shall not be used by You to backup data from networked Clients. In order to backup data from networked Clients and remote Clients to the SAN attached tape resources, You must acquire a full NetBackup Enterprise Server license.

17.8 NetBackup Library Based Tape Drive. If the Licensed Software You have licensed includes NetBackup Library Based Tape Drive, You may use such Licensed Software only to protect and manage the number of robotic-controlled Tape Drives licensed for such Licensed Software. There is no charge for stand-alone, non-robotic tape drives directly attached to a NetBackup Master/Media Server or NetBackup Server.

In addition, You may use NetBackup Library Based Tape Drive to support physical tape drives only. If you wish to acquire backup support for virtual tape drives or any device that simulates the behavior and functionality of a physical tape drive, You must obtain the appropriate number of NetBackup Data Protection Optimization Option licenses.

17.9 NetBackup Shared Storage Option. If the Licensed Software You have licensed includes NetBackup Shared Storage Option, such Licensed Software may be used only to dynamically share the number of Tape Drives, standalone or robotically controlled, licensed for such Licensed Software among multiple NetBackup Enterprise Servers and NAS systems. In order to share Tape Drives, you must acquire a license for NetBackup Shared Storage Option and such license shall be in addition to any required licenses for NetBackup Library Based Tape Drive.

- B. THE COMPONENT CONTAINS A TIME-OUT FEATURE THAT WILL AUTOMATICALLY RE-BOOT THE COMPUTER AFTER TWENTY-FOUR HOURS OF CONTINUOUS USE. THIS TIME-OUT FEATURE WILL RESET EACH TIME THE COMPONENT IS RE-LAUNCHED.
- C. The Component may be used as a boot, diagnostic, disaster recovery, setup, restoration, emergency service, installation, test, and configuration utility program. Use of the Component as a general purpose operating system or as a substitute for a fully functional version of any operating system product is strictly prohibited.
- D. Notwithstanding any other term of this Agreement, the Component is provided without warranty of any kind whatsoever and is licensed "As Is."

Windows® is a registered trademark of Microsoft Corporation.

17.14 NetBackup Platform Base – NDMP Edition. If the Licensed Software You have licensed includes NetBackup Platform Base – NDMP Edition, such Licensed Software may be used only in connection with data that is backed up using NDMP.

17.15 IBM zSeries. Notwithstanding any other provision of this Agreement, if you have installed the Licensed Software on an IBM zSeries computer, you must license a NetBackup component for each IBM Logical Partition ("LPAR") on such computer. For the purposes of this Agreement, a LPAR is considered the same as an actual machine in connection with such computer. For virtualized instances within a LPAR, no more than one license of each type is needed per LPAR.

17.16 Starter Pack Restrictions. If the Licensed Software You have licensed includes a Starter Pack, You may only install and use a single Starter pack on a single NetBackup Domain. You may not upgrade or cross grade a Starter Pack into another type of Starter Pack. If the Licensed Software You have licensed includes a "5 Client Pack" or "5 Client Starter Pack", You may only install and use the applicable components of the Licensed Software on up to five (5) X Plat Standard Clients, one (1) X Plat Server and one (1) X Plat Tape Drive. If the Licensed Software You have licensed includes a "20 Client Pack" or "20 Client Starter Pack", You may only install and use the applicable components of the Licensed Software on up to twenty (20) X Plat Standard Clients, one (1) X Plat Server (Tier 2), one (1) X Plat Tape Drive and two (2) X DB database agents (Tier 2) running on Windows. If the Licensed Software You have licensed includes a "40 Client Pack" or "40 Client Starter Pack", You may only install and use the applicable components of the Licensed Software on up to forty (40) X Plat Standard Clients, one (1) X Plat Server (Tier 2), two (2) X Plat Tape Drives and three (3) X DB database agents (Tier 2) running on Windows.

17.17 NetBackup OpsCenter Analytics. If the Licensed Software You have licensed includes NetBackup OpsCenter Analytics, the following apply:

- A. In the event that the Licensed Software includes components to be installed on a server computer, You may install such portions of the Licensed Software on any number of server computers so long as such installed Licensed Software is only used for the authorized maximum number of Clients or Users as may be specified in the License Instrument.
- B. In order to use any components of the Licensed Software designated as third party access license modules or options in support of licensed Clients or Users, You must acquire a license for each such third party modules or options at additional charges for use with the Licensed Software.

17.18 Data Collection; Data Protection Regulations. In connection with Your use of the Licensed Software, Symantec may collect, retain, disclose and use certain information ("Collected Data"). Collected Data may include, but is not limited to, personally identifiable information about You, Your devices or systems or Your software usage. Symantec use(s) such Collected Data to enable, optimize and provide the Licensed Software or maintenance/support to You (and may engage third parties to do so as well) and to improve Symantec's products and services in general, including by reviewing aggregate data for statistical analyses. By installing and/or using the Licensed Software, You agree to allow Symantec to collect Collected Data as described in this section. Please refer to Symantec's [product privacy notices](#) in order to fully understand what information Symantec collects, retains, discloses, and uses from You or Your devices. Please note that the use of the Licensed Software may be subject to data protection laws or regulations in certain jurisdictions. You are responsible for ensuring that Your use of the Licensed Software is in accordance with such laws or regulations.

17.19 USE OF JAVA SOFTWARE. The Licensed Software contains Java as licensed from Oracle Corporation. Your use of the Java portion of the Licensed Software ("Java Software") is subject to the following additional terms:

A. Java Technology Restrictions. You shall not create, modify, change the behavior of, or authorize licensees of Symantec to create, modify, or change the behavior of, classes, interfaces, or subpackages that are in any way identified as "java", "javax", "sun" or similar convention as specified by Oracle in any naming convention designation. In the event that Symantec creates an additional API(s) which: (a) extends the functionality of a Java Environment; and (b) is exposed to third party software developers for the purpose of developing additional software which invokes such additional API, Symantec must promptly publish broadly an accurate specification for such API for free use by all developers.

B. Trademarks and Logos. This License Agreement does not authorize You to use any Oracle America, Inc. name, trademark, service mark, logo or icon. You acknowledge that Oracle owns the Java trademark and all Java-related trademarks, logos and icons including the Coffee Cup and Duke ("Java Marks") and agree to: (a) comply with the Java Trademark Guidelines at <http://www.oracle.com/us/legal/third-party-trademarks/index.html>; (b) not do anything harmful to or inconsistent with Oracle's rights in the Java Marks; and (c) assist Oracle in protecting those rights, including assigning to Oracle any rights acquired by Symantec in any Java Mark.

C. Source Code. The Java Software may contain source code that, unless expressly licensed for other purposes, is provided solely for reference purposes pursuant to the terms of this License Agreement. Source code may not be redistributed unless expressly provided for in the terms of the License Agreement.

D. Third Party Code. Additional copyright notices and license terms applicable to portions of the Java Software are set forth in the THIRDPARTYLICENSEREADME.txt file.

E. Commercial Features. Use of the Commercial Features for any commercial or production purpose requires a separate license from Oracle. "Commercial Features" means those features identified in the Java Software documentation accessible at <http://www.oracle.com/technetwork/java/javase/documentation/index.html>. Nothing in this License Agreement grants any rights to use the Commercial Features of the Java Software.

17.20 NOTICE OF GPL SOFTWARE. The Licensed Software includes Third Party Programs which are licensed under the GNU General Public License v2.0 ("GPL"). You may obtain a copy of the GPL at <http://www.gnu.org/licenses/gpl-2.0.html>. If you choose to install and use the Third Party Programs, the GPL will govern your use of the Third Party Programs. The License Agreement does not apply to the Third Party Programs. To the extent that any of the terms and conditions of this License Agreement conflict with the GPL, the conflicting terms and conditions shall not apply to the Third Party Programs. Source Code for the Third Party Programs included with this product are available from Symantec at <http://www.symantec.com/support/index.jsp> in the Technical Notes related to this product.

17.21 CloudConnectors. If the Licensed Software You have licensed includes a cloud connector (each being a "Cloud Connector") to enable storage of backups to non-Symantec or third party cloud storage environments or services, the following apply:

A. Your use of the Cloud Connector to store backups to non-Symantec or third party cloud storage environments or services is subject to changes by third parties providing such environments or services which are outside Symantec's control. Symantec shall not be responsible for any outages, data loss, bugs, technical problems, or other errors caused directly or indirectly through your access to such non-Symantec or third party cloud storage environments or services and/or use of the Cloud Connector. You shall bear the sole risk of loss of or damage to any data through use of such non-Symantec or third party cloud storage environments or services.

B. NOTWITHSTANDING ANY OTHER PROVISION OF THIS AGREEMENT, THE CLOUD CONNECTOR IS LICENSED "AS IS" AND WITHOUT WARRANTY OF ANY KIND WHATSOEVER.

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software—to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a)** You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
- b)** You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
- c)** If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

- a)** Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- b)** Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- c)** Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
