If you do not want to provide this data to Symantec, you can opt-out of this analysis by (i) disabling JavaScript on your computer, or (ii) un-selecting the check box shown on the Licensed Software User Interface. If you disable JavaScript, some of the features on the Licensed Software User Interface may not work.

Symantec will use the Information internally to improve Symantec products and services through the review of usage patterns. The Information will be processed in the United States or other countries that may have less protective data protection laws than the region in which You are situated (including the European Union), but Symantec has taken steps so that the collected information, if transferred, receives an adequate level of protection. Symantec will not share, sell, rent, lease or transfer the information to any third party.

The Information may be correlated with other personal information held by Symantec, as needed for product development and for error analysis.
