

This Fixed Price-Fixed Scope Service Description describes the **Velocity Quick Start Deployment Service , Control # VVQS09072017** (the "Service"). This Service Description is part of any Services Instrument that incorporates this Service Description by reference (collectively, the "Agreement"). "**Services Instrument**" means one or more of the following applicable documents which further defines Customer's rights and obligation related to the Service: a Veritas certificate or a similar document issued by Veritas, or a written statement of work between Customer and Veritas with associated terms and conditions, that references this Service Description.

### Service Overview

This Service is a Fixed Price-Fixed Scope Service engagement to facilitate a rapid deployment of the Velocity Self-Service Hybrid Cloud in a Customer environment with minimal configuration for each quantity Customer has purchased.

### Delivery Details

#### Scope of Service

The following tasks shall be performed for this Service. Veritas shall:

- Deploy Virtual Storage Server Appliance
- Register Velocity
- Add a single DB host
- Demonstrate creation of a single test environment

#### Deliverable

- Provide a Quick Start as-built Configuration Document

### Key Dependencies & Customer Responsibilities

- All tasks shall be performed remotely from a Veritas facility. If Customer requires Veritas to perform the Service onsite, the parties will mutually agree on travel and expense fees.
- Work is conducted during Normal Work Hours.
- Payment for license, use and operation of all Customer infrastructure are the sole responsibility of Customer.
- Quick-Start Deployments are assumed to be new installations. No upgrade activities have been considered.
- An external Network Time Protocol (NTP) source must be available in the environment to allow for time synchronization.
- Relevant Firewall configuration to facilitate the use of the Veritas Velocity product, any associated products and the designated protocols configured as part of the deployment service.
- DBA names and email addresses for adding to Velocity Role

- Test user names and emails addresses for adding to Velocity Role
- Any database related activities (e.g. PostgreSQL, Oracle, MSSQL DB setup and configuration) are the responsibility of the Customer DBA.

**Customer Responsibilities.** Veritas can only perform the Service if Customer provides required information or performs required actions. If Customer does not provide/perform per the following prerequisites, assumptions, or dependencies, Veritas' performance of the Service may be delayed, impaired or prevented:

- Customer's Project Sponsor shall assist in ensuring communication to related departments to follow the documented processes and procedures for the current engagement
- Customer shall perform maintenance before implementation begins on targeted servers.
- Customer shall provide information and resources in a timely manner as required by Veritas to facilitate task completion in accordance with the Service and Deliverable.
- Customer is responsible for review feedback and approval to any change request/upgrade request/purchase request, etc. raised by Veritas.
- Veritas strongly recommends that the Customer back up all critical hosts in Customer's environment before Service commencement. Veritas does not accept responsibility or liability for any loss of data incurred by Customer during the delivery of this Service
- Provide the necessary staffing resources (e.g., LAN, SAN, OS Platforms, DBA, etc.) to enable the Service to be performed.
- Allocate any necessary space, power, cooling, networking, security measures, and wire/cable management for the Service.
- Provide any necessary network access for Veritas, SNMP and email address requirements for alert notifications, and open the necessary network ports to enable the Service to be performed.
- Provision a contiguous range of physical IP addresses and a contiguous range of virtual IP addresses. All IP addresses (both physical and virtual) must be part of the same subnet and use the same netmask as the node's access IP.
- Any additional Customer Responsibilities set forth in the Services Instrument.

### Acceptance Schedule

Acceptance conditions are set forth in the Services Instrument. The milestone percentage below indicates (1) the percentage of the Service to be completed for each milestone and (2) for any Service which is not pre-paid, the percentage of the Service to be invoiced upon acceptance.

Payment Milestone	Acceptance Schedule	Milestone Percentage
Milestone #1:	Upon acceptance of the Service and Deliverable listed herein	100%
