

NetBackup Appliance Migration Offer

For NetBackup 5230, 5330 and 5240 Appliances.

Now is the time to modernize your aging backup appliances to avoid unplanned downtime and reduce operational complexity and cost. But change is hard, especially when your NetBackup™ Appliance has been in service for a long time.

We recognize that migrating from your old appliance to a new appliance can be a challenge. It takes time to plan and execute the migration. And then there's the chance for error and data loss.

You don't need that stress, so we're giving you an "Easy Button."

Easy Button Offer

Veritas is making it easy for you to migrate your mission-critical data protection from an existing NetBackup 5230, 5330 or 5240 Appliance to a newly purchased NetBackup 5250/5350 or NetBackup Flex 5150/5250/5350 Appliance. Skilled specialists from Veritas Professional Services will provide a remote configuration and migration service to fit your new appliance deployment and ensure your migration is completed simply and with confidence. This offer includes:

- **FREE** Primary Server catalog migration (a \$10,000 value).
- **FREE** Media Server data migration planning and demonstration.
- **FREE** environmentally sensitive certified off-site destruction and disposal (a \$2,000 value).

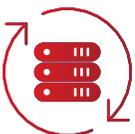

Primary Server Catalog Migration

The NetBackup catalog is the most important element of your protected data, so the utmost care must be taken to move the catalog to your new appliance. This promotional offer provides **FREE** remote appliance configuration, catalog migration (up to 600 GB) and a functional test of the new NetBackup or NetBackup Flex Appliance.

Media Server Data Migration Demonstration

Another critical element of your data protection is your data and moving this data from your old appliance to a new NetBackup Appliance is important. This promotional offer provides **FREE** remote target appliance configuration, demonstration of data migration for up to 250 GB and a functional test.

Environmentally Sensitive and Certified Disposal

As part of this limited-time offer, Veritas will provide a referral to a third-party partner that will provide the removal of the deprecated NetBackup 5230, 5330 or 5240 Appliance from your facility, dispose of it in an environmentally friendly way and provide a certificate of destruction— all at no cost to you.
