Veritas Alta™ Capture (formerly known as Merge1 SaaS) archiving software helps you capture popular message types, including financial messaging platforms, collaboration, file sharing, social media, SMS, mobile chat applications, web page, and cloud-based content.

Cloud Capture Capability for your Archiving Needs

**Total Integration:** Full integration with Veritas Alta™ Archiving, Enterprise Vault, and Microsoft 365

**Fully Customizable:** Can be customized to support any content, including proprietary content sources

**Designed for Simplicity:** No training required; small footprint; runs on existing infrastructure; quick setup

Add Veritas Alta Capture to Your Existing Email to:

- **Archive:** Retain all conversations taking place by your workforce, over any medium
- **Comply:** With message archiving regulations
- **Enhance:** eDiscovery and legal preparedness

**Archive the Business Conversations Taking Place Across All Your Platforms**

As more business communications take place over new digital channels such as social media and financial IM, capturing these communications has become essential for:

- Compliance with industry regulations, including financial services and pharmaceuticals
- Support of eDiscovery efforts for legal cases and investigations
- Retention of communications for corporate governance and other mandates
Total Integration with Veritas Alta Archiving

Veritas Alta Capture—the only archive messaging application endorsed by both Microsoft and Veritas—greatly simplifies the process of capturing and archiving messages for compliance and eDiscovery. Its integration with Veritas Alta Archiving gives users the ability to collect from more than 120 content sources using the archive portal. Veritas Alta Capture helps you achieve:

- Seamless integration within the Veritas Alta Archiving platform
- Hassle-free capture without complex software and hardware management
- All-in-one cloud capture and archiving
