

Consulting Services

eDiscovery Platform 10.x In-Place Upgrade Service

Consulting Upgrade Services

Veritas Consulting Upgrade Services help organizations realize a successful product upgrade in the most seamless route possible. Organizations that upgrade to current versions are more empowered to capitalize on the innovation of Veritas products, enabled with the latest features and functionality. After employing best practices and diagnostic know-how to address the organization's environment, Veritas experts provide a post-upgrade knowledge share that helps organizations achieve a successful shift to the upgraded version.

eDiscovery Platform 10.x In-Place Upgrade

Upgrade your eDiscovery Platform (eDP) operating version from 8.x or higher to eDP 10.x. If the base requirements are already in place, the upgrade process is smooth and easy. Veritas will run a health check to identify any issues within your environment that may impact the upgrade, and provide you with a list of items to address—either on your own, or through our Remediation Services. Post-upgrade, Veritas will provide a two-hour session with your team to review product functionality and your team's requirements.

Base Package Requirements	<ul style="list-style-type: none"> One (1) eDP server running Windows 2008R2/2012/ 2012R2 and eDP version 8.x or higher
What You Get	<ul style="list-style-type: none"> Health Check, evaluates existing environment to ensure optimal configuration for the upgrade In-place upgrade from eDP 8.x or higher to eDP 10.x for one (1) eDP server;atching of any applicable service packs or hot fixes Acceptance testing of eDP post upgrade Post-upgrade knowledge transfer
