

Appliances provide efficient protection for Portuguese Tax & Customs Authority data.

VERITAS™

OUR CUSTOMER

AT - AUTORIDADE TRIBUTÁRIA E ADUANEIRA (PORTUGUESE TAX & CUSTOMS AUTHORITY)

Website: www.portaldasfinancas.gov.pt

Industry: Government Federal/Central

Headquarters: Lisbon, Portugal

Employees: approximately 15,000

Veritas Partner: SIA CESCE (part of SIA, an Indra company)

"NetBackup integration with AT - Autoridade Tributária e Aduaneira's legacy solution saves them from a system migration for backups requiring long-term retention."

— *Filipe Lima, Sales Manager,
SIA CESCE*

THE CHALLENGE

Due largely to a fast-growing Oracle environment, the tax authority needed more space for Veritas NetBackup storage. Data protection efficiency was suffering.

THE SOLUTION

The organization upgraded NetBackup and improved infrastructure efficiency by deploying NetBackup Appliances that automate replication between data centers.

THE OUTCOME

The appliances protect current data effectively, while integrating with the previous NetBackup infrastructure, in case the tax authority needs to restore older data.

AT A GLANCE

Fast and easy data restores complete with a very high success rate.

Much faster backups significantly reduced backup times.

Efficient deduplication reduces storage required for data protection.

PRODUCTS / SERVICES USED

NetBackup Appliances

Appliances provide efficient protection for Portuguese Tax & Customs Authority data.

“With some data protection solutions, backups fail a lot. With NetBackup and the NetBackup Appliances, AT - Autoridade Tributária e Aduaneira has had very, very high success rates—100% or very close to 100%.”

— José Belejo,
Business Development Manager,
SIA CESCE

ABOUT VERITAS

Veritas Technologies is a global leader in data protection and availability. Over 50,000 enterprises—including 87 percent of the Fortune Global 500—rely on us to abstract IT complexity and simplify data management. The Veritas Enterprise Data Services Platform automates the protection and orchestrates the recovery of data everywhere it lives, ensures 24/7 availability of business-critical applications, and provides enterprises with the insights they need to comply with evolving data regulations. With a reputation for reliability at scale and a deployment model to fit any need, Veritas Enterprise Data Services Platform supports more than 800 different data sources, over 100 different operating systems, more than 1,400 storage targets, and more than 60 different cloud platforms.
