

Municipal IT provider smooths out VM protection with NetBackup Appliances.

OUR CUSTOMER

FUKUI SYSTEMS

Website: www.fukui-systems.co.jp
Industry: Communication & Media
Headquarters: Fukui, Japan
Employees: 171

"We found that the time to obtain a backup took about half or less than the time it took with the previous machines. The same was true of the time required to backup virtual machines. There were absolutely no errors, with all processes completed without fail."

— Mr. Keiichi Inazaki, Infrastructure Group,
Outsourcing Service Division,
Fukui Systems

THE CHALLENGE

Cloud backups for municipal clients were too slow, unreliable, and burdensome. Business continuity was also an issue.

THE SOLUTION

Veritas NetBackup™ Appliances deployed to back up 80 VMware ESXi virtual machines and to perform replication to another data center.

THE OUTCOME

Greatly improved managed services, thanks to faster and more reliable backup and recovery and reduced operational workloads.

AT A GLANCE

98% reduction in backup data volume

50% shorter backup time

99% less bandwidth required for backup

100% successful backup completion

PRODUCTS / SERVICES USED

NetBackup Appliances

Municipal IT provider smooths out VM protection with NetBackup Appliances.

"Thanks to the deduplication function, we can save up to 98% in terms of backup data size and as much as 99% in bandwidth usage, resulting in an anticipated higher operation efficiency than the previous machine."

— Mr. Keiichi Inazaki, Infrastructure Group,
Outsourcing Service Division,
Fukui Systems

ABOUT VERITAS

Veritas Technologies is a global leader in data protection and availability. Over 50,000 enterprises—including 87 percent of the Fortune Global 500—rely on us to abstract IT complexity and simplify data management. The Veritas Enterprise Data Services Platform automates the protection and orchestrates the recovery of data everywhere it lives, ensures 24/7 availability of business-critical applications, and provides enterprises with the insights they need to comply with evolving data regulations. With a reputation for reliability at scale and a deployment model to fit any need, Veritas Enterprise Data Services Platform supports more than 800 different data sources, over 100 different operating systems, more than 1,400 storage targets, and more than 60 different cloud platforms.
