Veritas Professional Services

Access Appliance Premium Deployment Service

Realize Success with a Proven Access Installation

The Access Appliance Premium Deployment Service helps expedite a production-ready Access Appliance implementation with expert configuration, testing and verification within your IT environment. The Premium Deployment Service also includes provisioning for an attached Veritas product, including Veritas NetBackup™, Veritas Enterprise Vault™ or Cloud Catalyst.

Convert Technology Investments Into Business Success

Get greater organizational value from your Veritas Access Appliance investment with expert implementation services by Veritas. Our consultants help accelerate your digital transformation by simplifying deployment, reducing risk and improving your knowledge and insights.

Working closely with you, Veritas installers help speed acceptance through careful pre-engagement planning and environmental readiness checks, systematic configuration, integration and functional testing, delivery of a production-ready system, demonstrations and as-built documents.

World-Class Delivery
by Veritas Experts

Comprehensive
Fixed-Price Installation

Ready to go
Configured, Tested and Verified

Realize Exceptional Value

- Simplify startup with a verified and tested, production-ready Access Appliance installation.
- Reduce deployment risks.
- Fully verified installation helps facilitate immediate data policy, optimization, availability and cloud digital transformation configuration.
- Shorten the learning curve with opportunity for hands-on experiences.

Complete Access Appliance Implementation, Including:

- Veritas Access expert pre-installation planning and readiness assessments.

- Remote configuration, deployment and testing and one (1) Access Appliance for a single site.

- Provisioning Access Appliance for one NetBackup, Enterprise Vault or Cloud Catalyst.

- System demonstration.

- As-built configuration documentation.

Implementaion Component	Specification
Pre-Installation Planning	Kickoff workshop, design review and readiness check
Target Environment	Production
Sites	One (1) site
Access Appliance	One (1) system
Storage Configuration	• 1 Storage Pool • 1 CIFS or NFS Share • Cloud Tier (if applicable)
Veritas Product Configuration	Provision one (1) NetBackup, Enterprise Vault or Cloud Catalyst product
