

Professional Services

NetBackup™ Deployment Service

Accelerate Your Information Protection Transformation

Speed time to production and increase organization data protection benefits with expert NetBackup™ deployment services from Veritas. Our professional implementations help reduce deployment risk, strengthen your data backup and recovery posture and improve your information protection environment knowledge and insight.

Realize Success With Proven NetBackup Implementation

The NetBackup Deployment Service provides rapid, customizable implementation of Veritas' industry leading data protection software. Built on best practices and the expertise of Veritas engineers and implementation consultants, this service helps assure that NetBackup software is installed, configured and operationally verified—shortening time to service.

Veritas consultants speed acceptance through careful pre-engagement planning, systematic installation, configuration, integration, functional testing and operations walkthrough session.

WORLD CLASS DELIVERY

by Veritas Experts

SCALEABLE

Fixed Price Installation

PRODUCTION READY

Configured, Tested and Verified

Benefits

- Faster time to service
- Simplify installation and startup
- Reduce deployment risk

Why Veritas Services

- Expert data protection implementation consultants
- Learn faster with hands-on experiences
- System test and verification
- Global services delivery

Veritas Deployment Service Benefits

- Simplify startup with verified and tested implementation
- Reduce deployment risk
- Shorten the learning curve with hands-on experiences

Configure for Your Data Protection Environments

The service may be scaled to match your deployment needs. The base First Server is required for all orders. When more servers are getting installed, order the quantity of Additional Server(s) needed to complete the NetBackup deployment.

Deployment Service Name	Part Number	Description
NetBackup Deployment Service - First Server ¹	21751	Deploy, configure and functionally test one (1) NetBackup 8.1.x : <ul style="list-style-type: none"> ▪ Master Server ▪ Media Server ▪ Master / Media Server ▪ OpsCenter Server
NetBackup Deployment Service - Additional Server ²	21752	Deploy, configure and functionally test one (1) additional NetBackup 8.1.x : <ul style="list-style-type: none"> ▪ Master Server ▪ Media Server ▪ Master / Media Server ▪ OpsCenter Server
