

Veritas CloudPoint—Quick Start Deployment Service

Convert technology investments
to business success.

Get up and running quickly with the CloudPoint - Quick Deployment Service delivered by the leading cloud data protection engineering and implementation experts. Reduce deployment risk, gain critical knowledge and insights, and validate functional operation of your production-ready CloudPoint deployment.

RAPIDLY REALIZE SUCCESS WITH A PROVEN CLOUDPOINT INSTALLATION

The rapid deployment CloudPoint—Quick Start service provides a proven and efficient way to bring-up a production-ready CloudPoint application. The Quick Start service assures all CloudPoint system elements, including; application, discovery, policies, and administrative rights are installed, configured and tested per design specifications for your cloud provider or on-premises cloud environment. Veritas implementation teams speed deployment and acceptance with a structured process, including; pre-installation design questionnaire, environmental readiness check, implementation, functional testing, demonstration, and knowledge transfer.

FAST

Speed Acceptance

WORLD CLASS DELIVERY

by Veritas Experts

READY TO GO

Tested and Verified

BENEFITS

- Accelerate your CloudPoint time to success with a functionally tested, production ready implementation customized to your environment.
- Gain freedom to focus on value creation activities.
- Shortened learning curve with demonstrations and hands-on experiences.

COMPLETE CLOUDPOINT IMPLEMENTATION

Establish a lightweight, scalable, and manageable cloud native data protection solution for your cloud compute environment. The CloudPoint deployment service helps accelerate implementation, demonstrates service readiness, increases application understanding, and establishes best operations practices.

The Quick Start Deployment Service includes:

- Veritas CloudPoint expert led planning and readiness check
- Installation and integration of CloudPoint on-premises cloud or provider cloud environment
- Functional testing
- Application demonstration and knowledge transfer
- As-built configuration document

	Quick Start
Pre-installation planning	Questionnaire, readiness check
Production Environment	Yes
Configuration	On-Premises Cloud or Cloud Provider environment
