

Manage Your Risk and Strengthen Compliance

Take a unified approach to data protection, application resiliency, and governance.

Protecting your organization's data is more critical than ever. The threat landscape is constantly evolving. Ensuring data protection, compliance, and security requires you to address multiple challenges to your operations.

It is important to build a strategy to minimize vulnerability to cyberattacks, regulatory penalties, or reputational damage. Take compliance as an example. In 2022, five of the world's key regulators issued [more than \\$7B in regulatory fines](#).

A comprehensive approach addresses multiple challenges. With it, you can reduce risks, ensure application resiliency, and maintain regulatory compliance. Complete data observability and continuous monitoring can help you confidently stay ahead of evolving threats while managing risks. Create a proactive strategy that focuses on controlling your data and applications across your entire data estate.

Veritas delivers unmatched capabilities in data protection, application resiliency, and compliance, providing the peace of mind you need to focus on driving your business forward.

Secure Your Business, Boost Security Posture

The importance of a strong security posture increases as your organization connects to different systems. The facts are clear, cyberthreats are evolving at an alarming rate. A single breach can have devastating consequences.

Implementing a unified solution is crucial. Not only does it reduce risk and enhance resilience against attacks, data breaches, and downtime, but it consolidates data intelligence. This approach simplifies access, offers insights, and manages compliance risk effectively. The Veritas platform provides full data observability and continuous monitoring across your organization, helping mitigate threats and safeguard your most valuable assets.

Avoid Penalties, Simplify Compliance

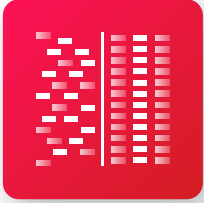

As your data grows and becomes more distributed, maintaining compliance becomes increasingly challenging. New regulations are continually emerging. And non-compliance can result in severe penalties and reputational damage.

Simplify compliance management without sacrificing security or performance using a streamlined, all-in-one solution from Veritas. With it, you can gain feature parity across platforms and systems, reduce costly export and migration fees, and enable:

- Efficient data capture
- Archiving
- Surveillance
- eDiscovery

Manage all aspects of data risk and resiliency, including data protection, security, compliance, and governance. Stay ahead of evolving regulations and avoid the consequences of non-compliance.

Turn Dark Data into Actionable Insights

Capture

Pull insights from more than 120 apps and content sources with a rich native review toolset that puts everything in context.

Archive

Seamlessly move data from on-premises to the cloud for advanced retention and supervision.

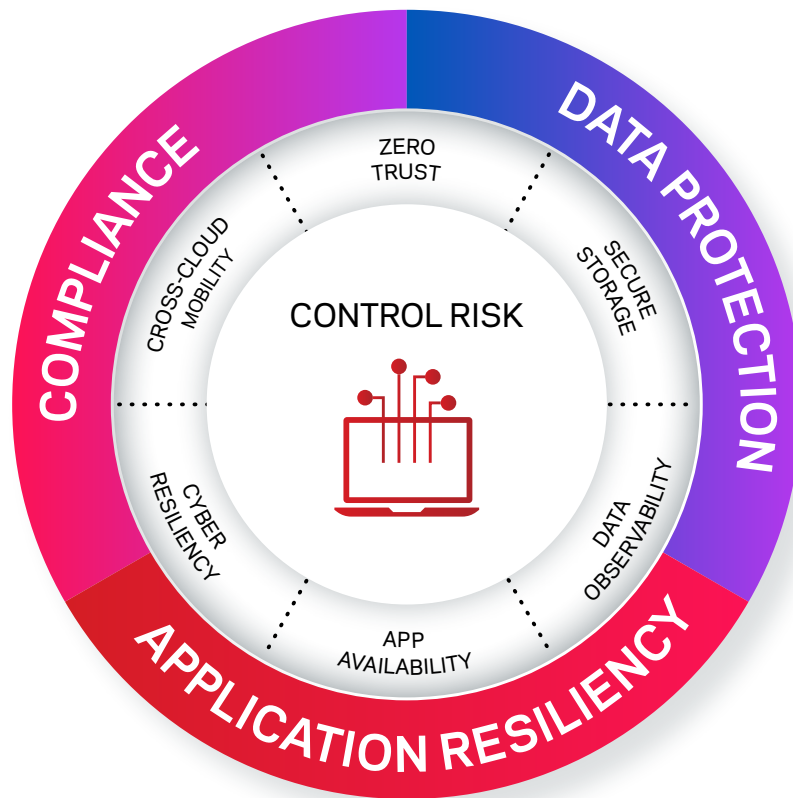

Discover

Index and classify archived data to allow for faster searches and surveillance for legal holds and compliance.

Prevent Downtime, Enhance Application Resiliency

More and more of your activity happens online. Your applications are essential to maintain smooth business operations and drive continuous innovation. Implement a strategy that ensures enterprise-class availability in the cloud, and enables application portability across clouds. Optimize storage consumption to achieve lower costs and greater performance compared to alternative solutions.

Experience the Benefits of a Customer-Centric Approach

Empower your organization with Veritas advantages that include:

- **Robust security posture:** Gain complete data observability and continuous monitoring across your data estate.
- **Streamlined compliance:** Efficiently manage all aspects of data risk and resiliency.
- **Optimized application resiliency:** Experience enterprise-class availability in the cloud, and maximize storage efficiently with lower costs and improved performance.

Success Story: Strengthening Compliance and Efficiency

GRC Solutions provides investigation, compliance, internal audit, and risk-management services across Brazil. It accelerated service delivery and attracted new clients by implementing Veritas eDiscovery Platform to enhance investigations, compliance, and risk-management processes. The platform's advanced features also enabled GRC Solutions to respond more quickly to legal and compliance discovery requests.

About Veritas

Veritas Technologies is a leader in multi-cloud data management. Over 80,000 customers—including 95 percent of the Fortune 100—rely on Veritas to help ensure the protection, recoverability, and compliance of their data. Veritas has a reputation for reliability at scale, which delivers the resilience its customers need against the disruptions threatened by cyberattacks, like ransomware. No other vendor is able to match the ability of Veritas to execute, with support for 800+ data sources, 100+ operating systems, 1,400+ storage targets, and 60+ clouds through a single, unified approach. Powered by Cloud Scale Technology, Veritas is delivering today on its strategy for Autonomous Data Management that reduces operational overhead while delivering greater value.
