

Veritas™ System Recovery 18, Veritas™ System Recovery 18 Linux Edition, Veritas™ System Recovery 18 Management Solution, and Veritas™ System Recovery 18 Monitor Software Compatibility List

Created on December 05, 2018

Introduction

Listed below are the available operating systems, platforms and applications specifically supported by Veritas to be compatible with Veritas™ System Recovery 18. This list includes the VSR family of products namely, Veritas System Recovery 18, Veritas System Recovery 18 Basic Edition, Veritas System Recovery 18 Linux Edition, Veritas System Recovery 18 Management Solution, Veritas System Recovery Granular Restore Option and Veritas System Recovery 18 Monitor.

1. Compatibility with other Veritas products

Compatibility with other Veritas products is important to the VSR team. Out of practical necessity, any efforts to ensure compatibility are limited to Veritas products that are current or, in other words, have not had an End of Life (EOL) announcement. Any exceptions or limitations for any Veritas product to this policy are noted here.

VSR cannot create a backup at the same time Continuous Protection Server (CPS) is running.

2. General compatibility notes

- VSR is Volume Shadow Copy Service (VSS) compliant. For VSS-aware database environments; example Exchange, SQL Server, and so on; VSR ensures that system state information is accurately captured. If a VSS-aware product, example Oracle 11g, has specific procedures to follow for a VSS backup, you must follow them.
- In case, if Windows 8/Windows Server 2012 is not supported by the hypervisor, VSRD version 18 may not boot successfully on virtual machines running on such hypervisors

3. Veritas support of 3rd party manufacturer products

Veritas will cooperate with 3rd party vendors, and attempt to assist in the diagnosis of problems found between the 3rd party and Veritas products. Veritas Technical Support on the combination of Veritas and 3rd party products listed in this document is conditional on the 3rd party product being supported by the original manufacturer or vendor. If the original vendor has ceased providing support for a version of their product, Veritas also will no longer be able to provide support on that product in combination with our products.

4. Minor "dot" version support

The contents of this document including 3rd party applications, databases, operating systems, in combination with Veritas products represent what has been tested in Veritas labs, or in Veritas-supervised partner labs, but is not intended to be a complete list of supported products and versions. Manufacturers of these products may frequently release minor version updates to their products as maintenance during their product's normal life cycle. (example version 1.x.x.x) that may not be explicitly listed in this document. In these situations where the base or major version of the product is listed as supported in this document but the minor maintenance update is not, Veritas will provide "reasonable effort" support on these versions until specific testing of them has completed.

5. Not every combination of software and hardware is tested.

Veritas provides best efforts to qualify Veritas System Recovery 18 with as many different operating systems, service packs, hardware platforms, database application service packs, and other applications as possible. However, due to the number of combinations, it is not possible to test all combinations for compatibility. If a particular service pack or version is not listed as specifically tested by Veritas, it may work fine, but has not been explicitly tested by Veritas with Veritas System Recovery 18.

Supported Software

The newly added software are added to this list for each release. See the feature in its respective section, via bookmarks, for more details.

VSR Section

- ESXi 6.7
- Windows Server 2019
- Exchange Server 2019

VSR-MS Section

- Red Hat Enterprise Linux 7.4
- SUSE Linux Enterprise Server 12 SP3
- Symantec Management Platform (SMP) 8.1
- SUSE Linux Enterprise Server 12
- SUSE Linux Enterprise Server 12 SP1
- SUSE Linux Enterprise Server 12 SP2
- Red Hat Enterprise Linux 7.0
- Red Hat Enterprise Linux 7.1
- Red Hat Enterprise Linux 7.2
- Red Hat Enterprise Linux 7.3

VSRL Section

- Red Hat Enterprise Linux 7.4
- SUSE Linux Enterprise Server 12 SP3
- Support for uEFI based computer with Veritas System Recovery 18 Service Pack 1

Product Legend

Acronym	Product/Option
VSR	Veritas System Recovery
VSR GRO	Veritas System Recovery Granular Restore Option
VSR-L	Veritas System Recovery for Linux
VSR-MS	Veritas System Recovery Management Solution, an Altris Solution
VSR-O	Veritas System Recovery 18 Option for BEWS. This is now known as VSR Basic Edition.
VSR-M	Veritas System Recovery Monitor

Note:

Veritas System Recovery Management Solution supports Symantec System Recovery (SSR), Symantec System Recovery for Linux (SSR-L), Symantec System Recovery Management Solution (SSRMS) and Symantec System Recovery Option for BEWS known as SSR Basic Edition (SSR-O)

Contents

<u>Veritas System Recovery 18</u>	<u>Veritas System Recovery 18 Granular Restore, included with VSR.</u>	<u>Veritas System Recovery 18 Basic Edition</u>
<u>Veritas System Recovery 18 Monitor</u>	<u>Veritas System Recovery 18 Management Solution</u>	<u>Veritas System Recovery 18 for Linux</u>
<u>End-of-Life Information</u>		

Veritas System Recovery 18

Also requires:

- Microsoft .NET Framework 4.5.2: Required to run and use Veritas System Recovery.
- Internet Explorer 8.0 and later

Notes:

- By default, Windows 10, Windows Server 2016, and Windows Server 2019 operating systems are installed with .NET Framework 4.6 or later.
- If the required .NET Framework versions are not already installed, the Veritas System Recovery installation program automatically installs them on your computer.
- Veritas System Recovery 18 Management Solution (VSR-MS) cannot be installed on a domain controller. This is due to the underlying Notification Server component leveraging some local user accounts which do not exist on domain controllers.
- Restoring Dynamic Disks in the Veritas System Recovery (VSR) Veritas Recovery Environment (VRE). See the following article for additional support limitations. <http://www.veritas.com/docs/000037965>
- While Veritas System Recovery can be installed on Windows Server Core, it is an Agent only install. Windows Server Core does not support .NET and thus the UI cannot be installed. Windows Server Core is supported via a headless agent only. No push install is supported. Agents running on Windows Server Core cannot be managed by VSR-M. Windows firewall changes must take place before Veritas System Recovery can be managed remotely. See <http://www.veritas.com/docs/000100457> for more details about what must change in the Windows firewall to remotely manage Veritas System Recovery.

Operating System Compatibility

Citrix

Name	Version	Service Pack	CPU Architecture
XenServer [1] [2] [3]	5.0		x86-64
XenServer	5.5		x86-64
XenServer [1] [2] [3]	5.6	FP1	x86-64
XenServer [1] [2] [3]	6.0		x86-64
XenServer [1] [2] [3]	6.1		x86-64
XenServer	6.2	SP1	x86-64

1. Recovery points (v2i/iv2i) can be restored directly to a XenServer VM using the recovery disk.

2. VSR fully supports protecting Windows systems running in a XenServer VM.

3. VHD and VMDK files created by VSR must be imported to a full VM before they are converted to XenServer (XVA) format.

Windows Small Business Server 2011	Standard	SP1	x86-64

1. Veritas System Recovery supports Windows Server 2008 Service Pack 1. The RTM release of Windows Server 2008 is considered to be Service Pack 1.
2. Update rollups for Windows 8.1\Windows 2012 R2 [KB 2919355, KB 2975719] are supported.
3. Windows Server 2016 versions 1709 and 1803 only come with core media. Veritas System Recovery only supports agent installation on server core platforms.
4. Windows Server 2019 is supported by Veritas System Recovery 18 SP2.

Microsoft Surface Pro

1. Veritas System Recovery cannot discover Striped and RAID5 InfoScale created volumes or any other volumes that are part of the same disk group where the Striped or RAID5 volumes are available.
2. Veritas System Recovery supports all InfoScale products.

File System Compatibility

File System Compatibility

File System	Version	O/S
NTFS	3.0	All VSR supported Windows platforms
NTFS	3.1	All VSR supported Windows platforms
ReFS [1]		All VSR supported Windows Server 2012, Windows Server 2012 R2, Windows Server 2016, Windows Server 2019, Windows 8.1 x64, Windows 10 x64 platforms
FAT32		All VSR supported Windows platforms
FAT16		All VSR supported Windows platforms
Ext2 [1]		All VSR supported Windows platforms
Ext3 [1]		All VSR supported Windows platforms
Linux Swap		All VSR supported Windows platforms

1. Support is for data volumes only.

Veritas System Recovery 18 Granular Restore, included with VSR.

Also requires:

- Internet Explorer version 8.0 or later
- .NET Framework 4.5.2.
- Microsoft Outlook 2007, Outlook 2010 32-bit or Outlook 2010 64-bit for Exchange restore.
- Limited support for Outlook 2013 in Veritas System Recovery 18. For more details please refer to <<http://www.veritas.com/docs/000023565>>
- VSR 18 recovery points are produced from an Exchange server for Exchange restore. Cluster and Cluster Continuous Replication environments are not supported.
- While Veritas System Recovery can be used to protect individual servers in Exchange DAG Configuration and individual Mailboxes can be restored in GRO, DAG failover conditions are not supported.

Notes:

- GRO does not support Exchange 2016 and Exchange 2019.
- By default, Windows 10, Windows Server 2016, and Windows Server 2019 operating systems are installed with .NET Framework 4.6 or later.
- Included with VSR Windows Editions only. GRO is not included with VSR Linux Editions.

SUSE Linux Enterprise Server	12	SP1	x86-64
SUSE Linux Enterprise Server	12	SP2	x86-64
SUSE Linux Enterprise Server [1]	12	SP3	x86-64

1. SUSE Linux Enterprise Server 12 SP3 is supported by Veritas System Recovery 18 SP1 and later.

Veritas System Recovery 18 for Linux

Operating System Compatibility

Note:

- SUSE Linux Enterprise Desktop and Red Hat Enterprise Linux Desktop are not supported.
- Veritas System Recovery Linux (VSRL) 18 and earlier versions do not support the backup and recovery of uEFI based computer. Please refer to the link below:

[<http://www.veritas.com/docs/000025187>](http://www.veritas.com/docs/000025187)

Veritas System Recovery 18 Service Pack 1 and later versions support uEFI based computer.

- All standard kernel versions are supported for the Linux distributions that are listed.
- The binary drivers are already included for all standard kernels that are supported for the Linux distributions listed.
- For custom kernels (recompiled kernels), the installer builds and installs the custom snap driver for the running custom kernel during installation. The system must have the custom kernel headers on the system.
- Veritas System Recovery Disk creation for Linux is supported only if the default kernel is installed with the system ISO. You can also use this recovery disk to restore backups taken on updated kernels.
- VSR Linux can be run on a ESXi 5.5, ESXi 6.0, ESXi 6.5, ESXi 6.7, Windows Server 2008, Windows Server 2008 R2 Enterprise, Windows Server 2012, Windows Server 2012 R2, Windows Server 2016, and Windows Server 2019 hypervisor virtual machine, provided the guest machine is running a supported operating system.
- VSR Linux Edition does not support Cluster and Cluster Continuous Replication environments.

CentOS	7.2		x86-64
CentOS	7.3		x86-64

File System Compatibility

Note:

- Veritas System Recovery 18 Linux Edition only supports the listed file systems. Other file systems such as JFS, NSS, Reiser4, and Btrfs are not supported.

File System Compatibility

File System	Version	O/S
Ext2		All VSR-L supported Linux platforms
Ext3		All VSR-L supported Linux platforms
Ext4		All VSR-L supported Linux platforms
FAT16 [1]		All VSR and VSR-L supported platforms
FAT32		All VSR and VSR-L supported platforms
ReiserFS	3	All VSR-L supported Linux platforms
XFS		All VSRL-18 supported SLES/RHEL platforms

1. With 2 GB limit.

End-of-Life Information

EOL Notice: These operating systems, backward compatibility for restores, rolling upgrades, third-party software applications, and Veritas products are no longer supported for use with this version of Veritas System Recovery.

The Version EOL Started column identifies the version of Veritas System Recovery that no longer provides the support and includes all subsequent releases. To provide Veritas with direct feedback, please use the Veritas System Recovery forum located here: <<https://vox.veritas.com/t5/System-Recovery/bd-p/system-recovery>>
