In addition, the following fields are now highlighted as part of classification hit highlighting: author(sender), recipient, content, date, subject, and for attachments, name, size, and extension. |

## Steps to Access Veritas Alta™ Archiving Downloads

We have a new updated **Downloads Center** that makes finding your Veritas Product Downloads even easier! You can read about it here: https://www.veritas.com/content/support/en_US/news/download_center .
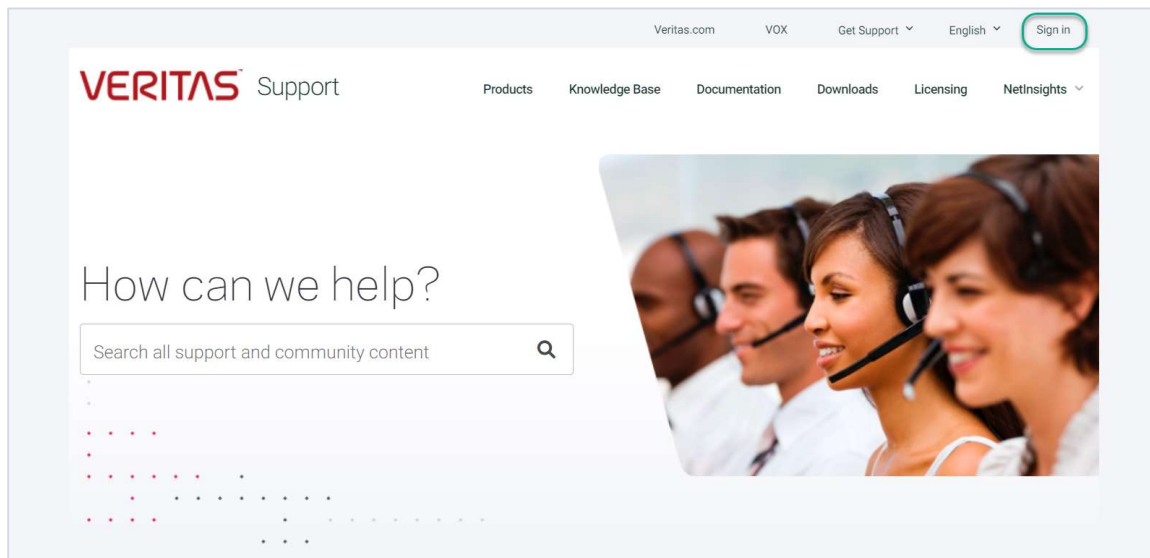

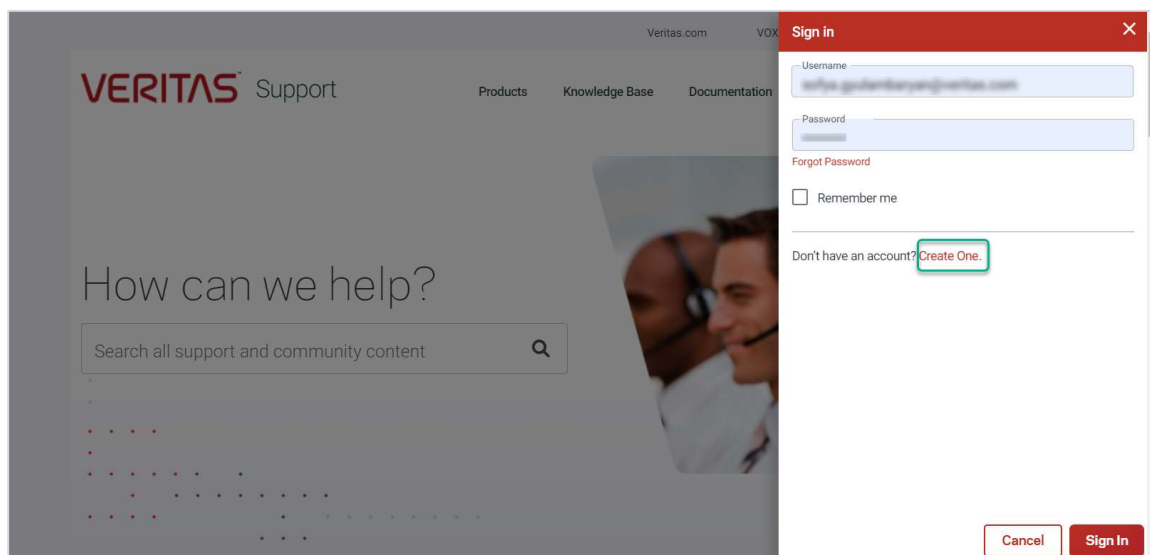

The new Downloads Center effectively combines the access to files from Veritas Entitlement Management System (VEMS), the Veritas Support website, or SORT into a one stop shopping experience.  Now you can find, review, and download software releases for all Veritas products (full installs, full upgrades, patches, and other related files) in one place. Obtaining Veritas software is now as simple as going to Veritas Support and clicking on the **Downloads** icon from the homepage.  It is that easy!

To start working in the Downloads Center:

1. Go to the Veritas Support.

2. If you have an account, then click **Sign-In** and jump to step 7.

3. If you do not have an account, click **Create One.**

8. Click the **Downloads** button and you will be directed to this page.
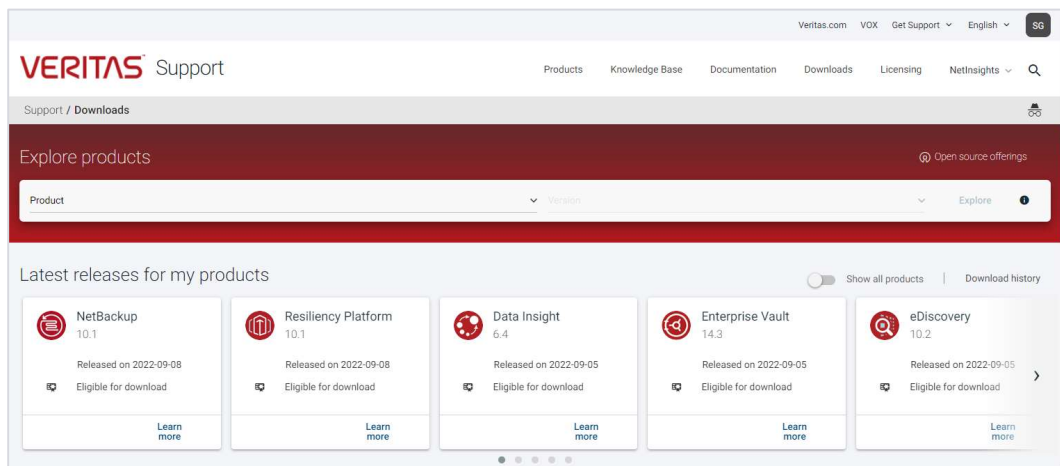

9. Click the **Product** dropdown arrow, to search for **Enterprise Vault.cloud**.

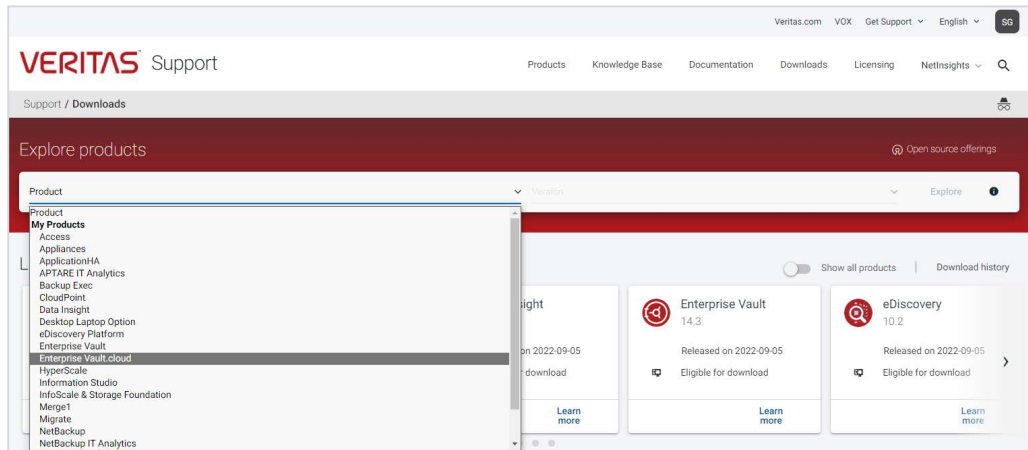

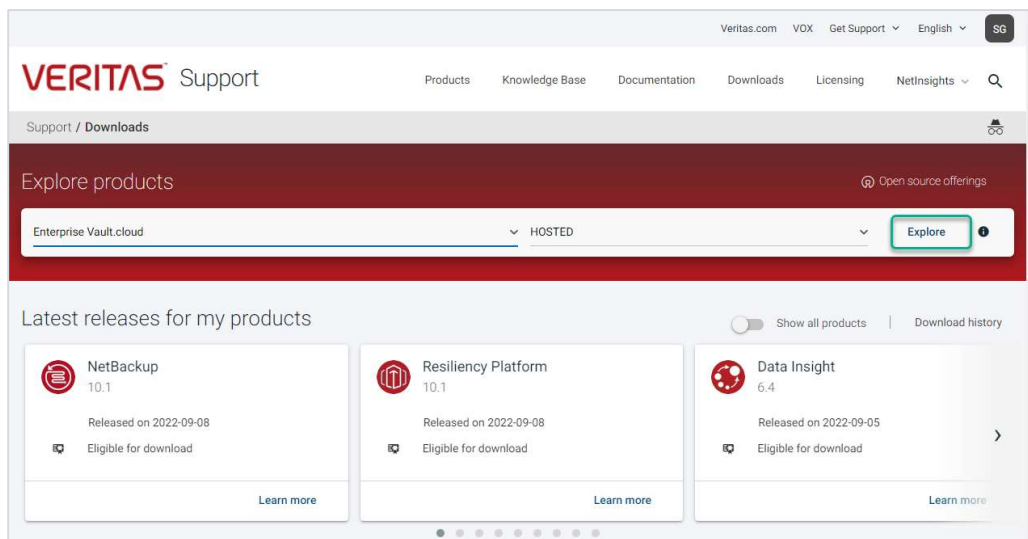

10. Click **Explore.**

11. In this window, click **Base and Upgrade Installers** and you will see a list of installers.

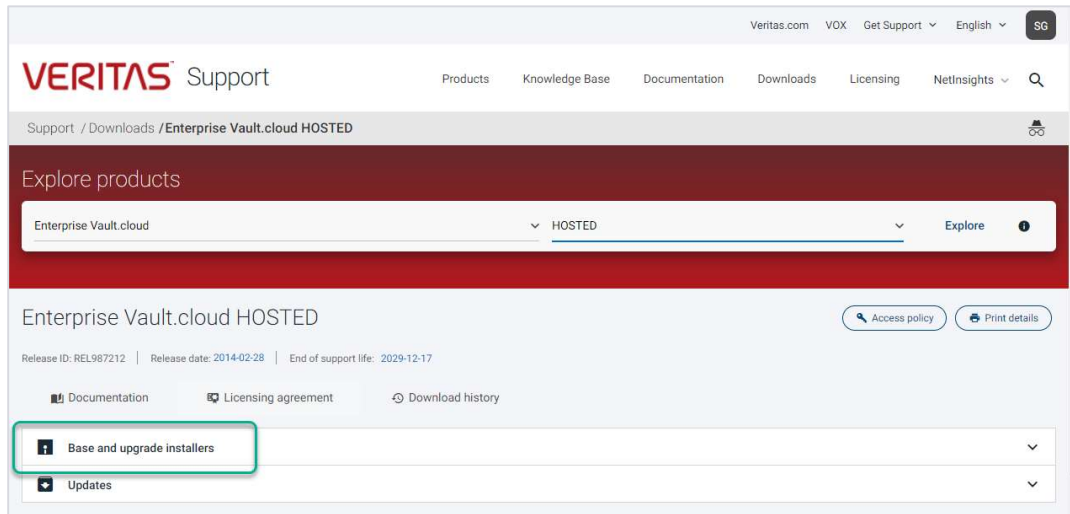

12. Check the box next to each file that you wish to download and click **'CloudLink 4.1.2 64-bit' or 'CloudLink 4.1.2 32-bit.'**
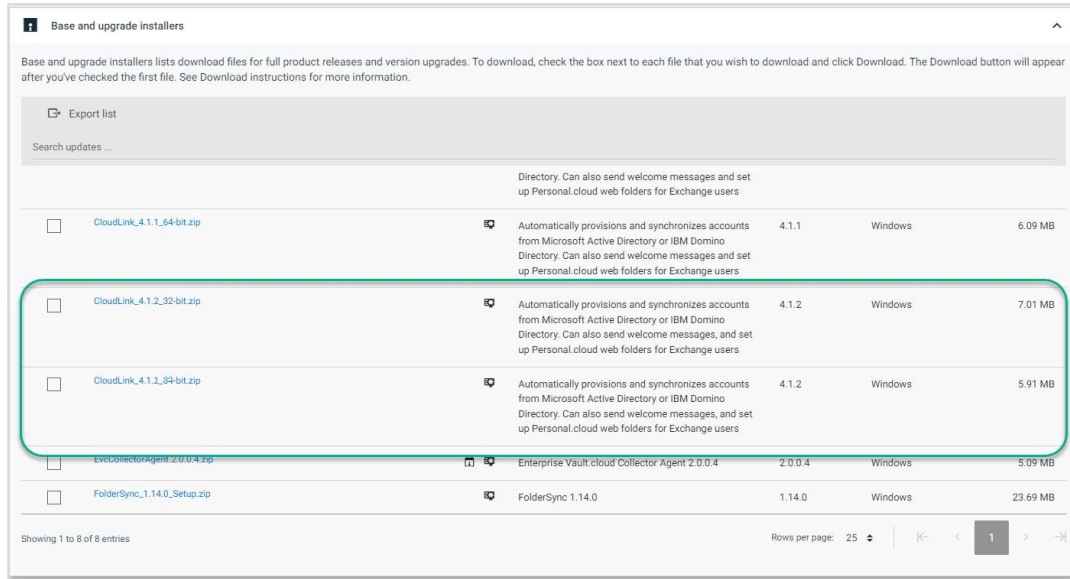

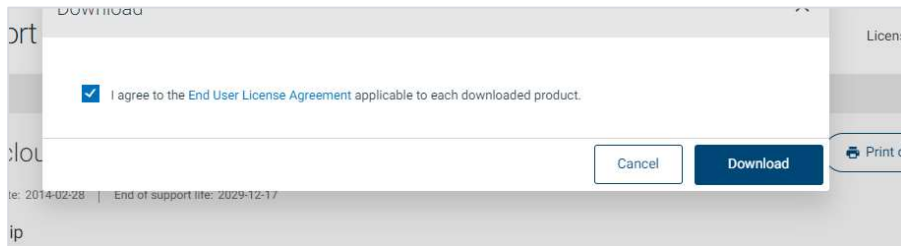

13. The **End User License Agreement** pop-up window will appear, and we recommend reading it before checking the box to continue.

14. Click **Download** and the zip file will start downloading to your machine.
