- **Bloomberg** - Modified the default host and port for the Bloomberg collector to reflect changes on Bloomberg's side
- **Text Delimited Collector** – Added the ability to specify content source for existing and new content types (above and beyond any existing API based collectors) which allows for downstream classification, retention, search & filtering by content type:
  - **SMS**
  - **WhatsApp**
  - **Twitter (EML)**
  - **ZoomChat (EML)**
  - **Carbon**
  - **ENMACC Energy**
  - **Legato Chat**

# Veritas Alta™ Data Compliance & Governance

RELEASE NOTES for June 2024 (Banyan) Release

- LiquidNet
- Markets Manager
- Saphyre
- Skytel-Pager
- Social
- Web CHAT
- WeChat
- FXT

- Added the option of setting a password to the User Information section while creating a new user in the Users & Groups section
- Improved the user interface and the logic of the **Filtering** section in the *Importer Settings* section
- Developed the Agent Configurator Wizard GUI tool for managing agents

## Classification

- **Policy condition for message body**
  - Users can now create policy conditions that apply to the message body and not the attachments.
- **Handling long list of keywords**
  - Manage long list of keywords by using the Expand option in policy conditions and patterns with a large pop out window to perform: Search, Sort, Import/Export and Add/Remove/Edit operations.
- **Specific character proximity distance**
  - From this release forward, user will be able to set precise value in the range of 1 to 10,000 characters as proximity distance.
- **Performance improvements**
  - Allows users to build bigger policies in the UI as well as shorten response time of classification, increasing the overall throughput.
- **New Policies:**
  - **Gifts and Entertainment Policy:** Transparent Policy that detects the offering or accepting of inappropriate gifts and entertainment.
  - **Resume CV Policy:** Detects resumes and curriculum vitae
  - **United States National Institute of Standards and Technology (NIST) 800-171 Policy:** Detect forms and terms relating to the U.S. National Institute of Standards and Technology (NIST) 800-171 publication
- **Updated Policies:**
  - **Off Channel Signaling:** In this release we have restructured the logic of the policy to apply individual patterns for each channel
  - **High Risk Securities - Complete List Policy**
  - **High Risk Securities - Other Policy**
  - **High Risk Securities - Large CAP Policy**
  - **High Risk Securities - Small CAP Policy**
  - **High Risk Securities - Mid CAP Policy**
  - **Offensive Language policy** has been updated to reduce false positive results

	<ul style="list-style-type: none"><li>• <b>Updated Patterns:</b><ul style="list-style-type: none"><li>○ <b>Authentication</b> pattern has been expanded to detect various PEM-encoded security keys and tokens</li><li>○ Improved detection of <b>South Korean bank account and credit card numbers</b></li><li>○ Detection of non-delimited <b>U.S. Social Security Number (SSN)</b> without keywords has been reinstated</li><li>○ <b>France Full Name</b> classification rule has been renamed to Person's Name - France and applied to the related policy</li><li>○ <b>Australia Postal Address pattern</b> has been extended to detect mailing/postage format with less corroborative evidence</li></ul></li><li>• <b>Migration</b><ul style="list-style-type: none"><li>• User &amp; Domain filtering – Ability to target items of select users or those from particular domains for migration from Enterprise Vault Journal or SMTP archives to Alta Archiving.</li></ul></li></ul>

### Steps to Access Veritas Alta™ Archiving Downloads

We have a new updated **Downloads Center** that makes finding your Veritas Product Downloads even easier! You can read about it here: [https://www.veritas.com/content/support/en\\_US/news/download\\_center](https://www.veritas.com/content/support/en_US/news/download_center) .

The new Downloads Center effectively combines the access to files from Veritas Entitlement Management System (VEMS), the Veritas Support website, or SORT into a one stop shopping experience. Now you can find, review, and download software releases for all Veritas products (full installs, full upgrades, patches, and other related files) in one place. Obtaining Veritas software is now as simple as going to Veritas Support and clicking on the **Downloads** icon from the homepage. It is that easy!

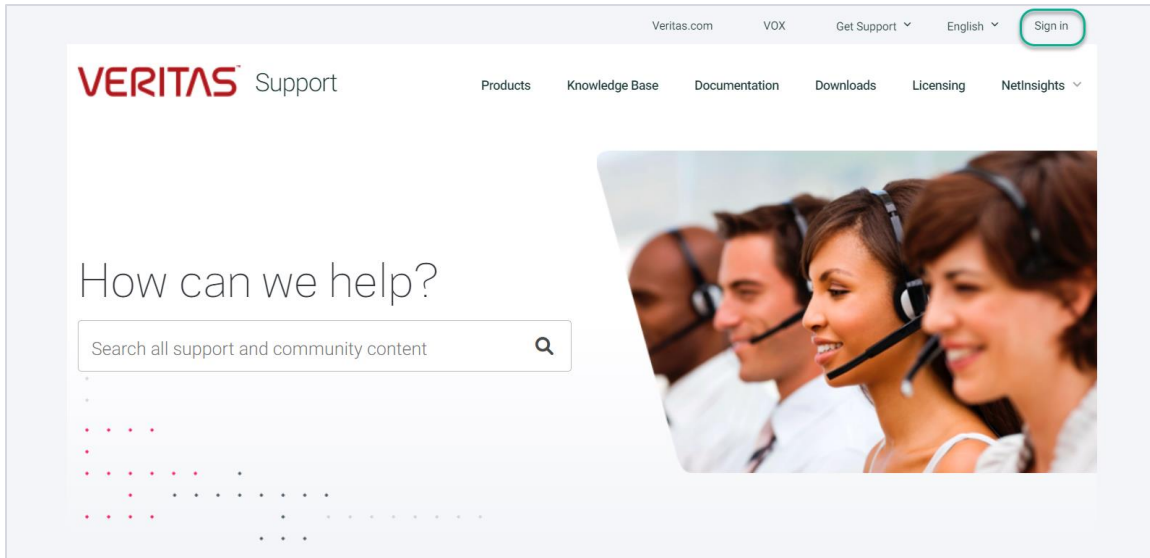

To start working in the Downloads Center:

1. Go to the [Veritas Support](#).
2. If you have an account, then click **Sign-In** and jump to step **7**.

A screenshot of the Veritas account creation form. The form is titled "Create your Veritas account profile" and includes fields for Email, Password, Confirm password, First name, Last name, and Company name. It also has dropdown menus for Country and Preferred language. A "Register" button is highlighted with a green border. The background of the form is a cityscape at night with a grid of blue lights on the ground.

5. When complete, click **Register**. You will be navigated to this page where you must **activate your account** by going to your email and clicking the proper link.

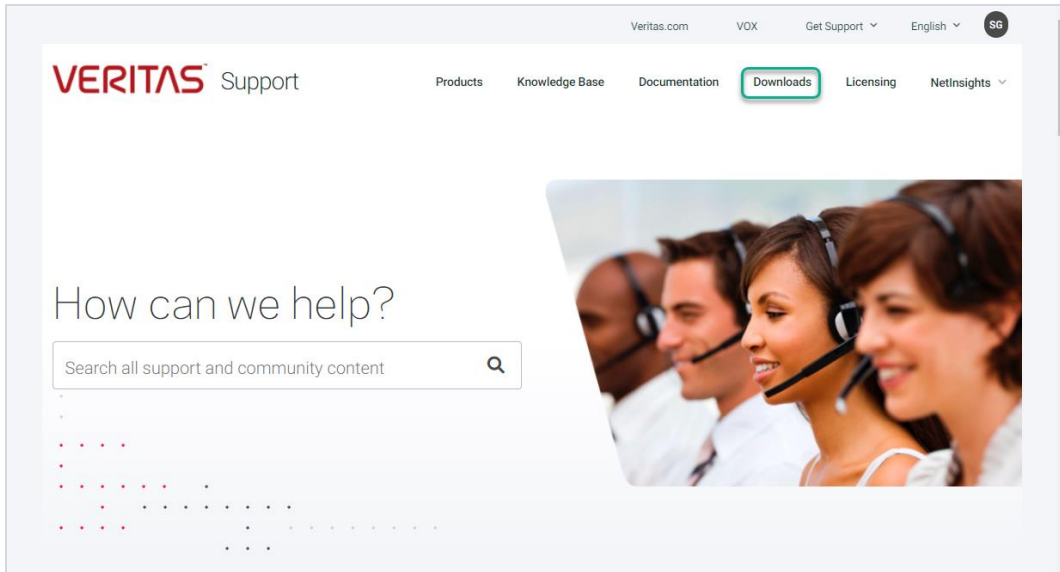

6. Click the **activation link** that is included in the received email to complete the registration process.
7. Go back to [Veritas Support](#) and **Sign in** to your account.
