--	---

<sup>1</sup> All future release dates are tentative and are subject to change at the sole discretion of Veritas. While the features and enhancements listed above are scheduled for the dates mentioned, Veritas makes no assurances that any or all these features and enhancements will be available at any time. Customers looking to purchase or renew their services with Veritas should do so solely based on the features of the service available at that time.

<sup>2</sup> Additional fees apply. Requires a concurrent number of Enterprise Vault.cloud Discovery Archive licenses.

# Veritas Alta™ Data Compliance & Governance

RELEASE NOTES for June 2023 (Pine) Release

- Show archive metrics (filtered by date ranges):
  - Total mail items
  - Total Archive Archives
  - Total Size of data in archives
  - Distribution by Attachment
  - Counts by message size
  - Distribution by content type
  - Count by Direction type
  - Top accounts by mail count
- This information can be exported:
  - PDF
  - CSV
  - Excel
  - Word

## **Alta View for Compliance & Governance – Classification Role**

- The Classification role in Alta View for Compliance and Governance has been updated to further isolate the activities of a Classification Admin only administrator
- Enhances security and allows for more granular distribution of admin related activities

## **FolderSync Performance Enhancements**

- Significant (more than 10x) sync performance improvement

## **Self Service Password Reset Enhancement**

- Enhanced password reset mechanism via an end-user password reset email, and no changes until the user takes the reset action

## **Veritas Alta™ Capture**

- Developed a new Audio Video collector
- Added a new Azure Active Directory filter type to the Mail Filter
- Added the Monitored User Statistics Endpoint to collect information from all sources for overages
- Implemented monitoring metrics functionality for the following collectors:
  - Citrix Workplace & ShareFile
  - Zoom Chat
- Added *Time Stamp Formatting* to the Source tab of the Citrix Workspace & ShareFile collector
- Ability to capture praises and approvals via the Microsoft Teams via Export API collector
- Ability to capture praises and approvals via the Microsoft Teams via Webhooks collector
- Limited data collection range for up to 31 days

# Veritas Alta™ Data Compliance & Governance

RELEASE NOTES for June 2023 (Pine) Release

- Renamed the *Delete data* functionality under the source section to Delete History
- Changed the confirmation popup text about an uploaded file
- Redesigned and added new features to the Monitored Users section
- Added the JIT (Just-in-Time) Provisioning feature to Merge1 Authentication
- Enhanced the Microsoft Teams via Webhooks collector to have the original messages of replies rendered within the output messages
- Enhanced the filtering of the Yammer collector for better performance
- Improved the performance of Microsoft Teams via Export API collector
- Enhanced the logging for the following collectors:
  - Box
  - Citrix Workspace & ShareFile
  - Yammer
- Slack eDiscovery
  - Improved the collector to display all participants' avatars in the output message
  - Deployed the caching technique to improve the overall performance of the collector
- Improved the Merge1 portal logging
- Developed a new Azure Blob target
- Enhanced the Box collector to have the Original creation date and Original modification date values printed in the output message body
- Enhanced the Bloomberg collector to handle the rollover mechanism for messages and attachments
- Redesigned the Licensing page
- Microsoft Teams via Export API
  - Improved the Threading section
  - Modified the Conversation areas to capture section
  - Added ability to capture the shared channels of Microsoft Teams
  - Added the monitoring metrics functionality
  - Included the team information within the exported thread
- Yammer
  - Enhanced the collector to have gif file names printed in the output message
  - Improved the collector to capture Yammer message attachments stored in SharePoint
- Updated the End User License Agreement
- Messages from the same day are now merged into one output message in case the threading is enabled. Previously, this functionality was optional and could be applied with the Split by day option.
- Added new endpoints to the Merge1 API for updating:
  - the Target name
  - the Filter name
- Bug Fixes
  - Addressed an issue with the Box collector where deleted comments were not captured

## Steps to Access Veritas Alta™ Archiving Downloads

We have a new updated **Downloads Center** that makes finding your Veritas Product Downloads even easier! You can read about it here: [https://www.veritas.com/content/support/en\\_US/news/download\\_center](https://www.veritas.com/content/support/en_US/news/download_center).

The new Downloads Center effectively combines the access to files from Veritas Entitlement Management System (VEMS), the Veritas Support website, or SORT into a one stop shopping experience. Now you can find, review, and download software releases for all Veritas products (full installs, full upgrades, patches, and other related files) in one place. Obtaining Veritas software is now as simple as going to Veritas Support and clicking on the **Downloads** icon from the homepage. It is that easy!

To start working in the Downloads Center:

1. Go to the [Veritas Support](#).
2. If you have an account, then click **Sign-In** and jump to step 7.

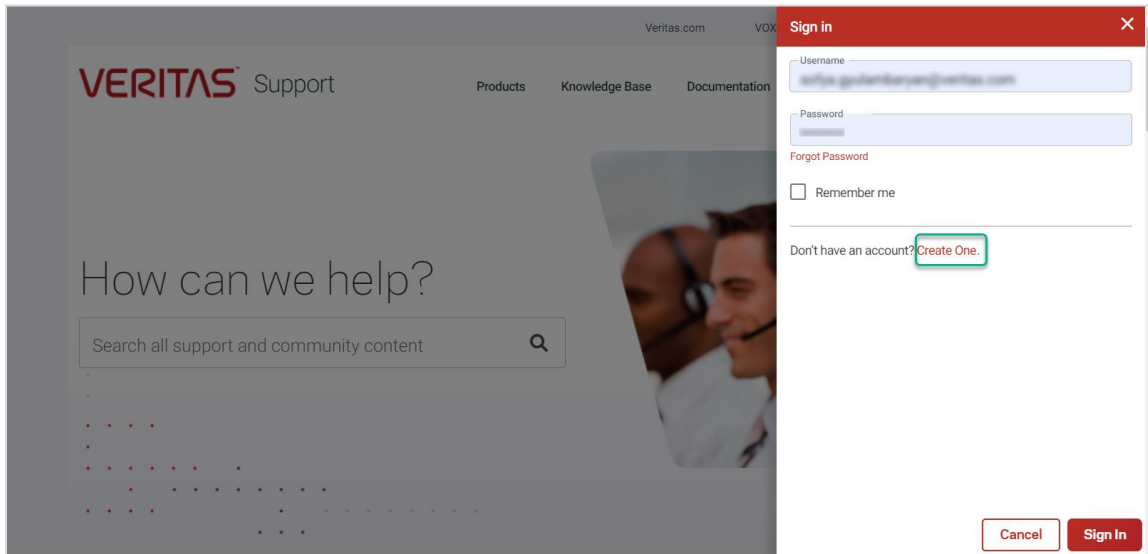

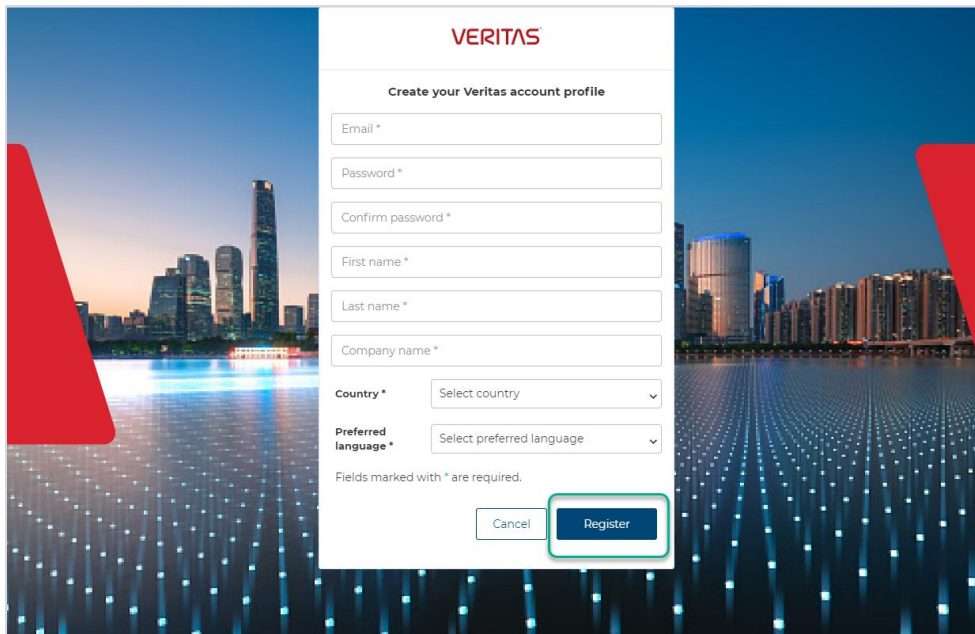

# Veritas Alta™ Data Compliance & Governance

RELEASE NOTES for June 2023 (Pine) Release

3. If you do not have an account, click **Create One**.

4. In the opened window, fill in the proper details to create an account.

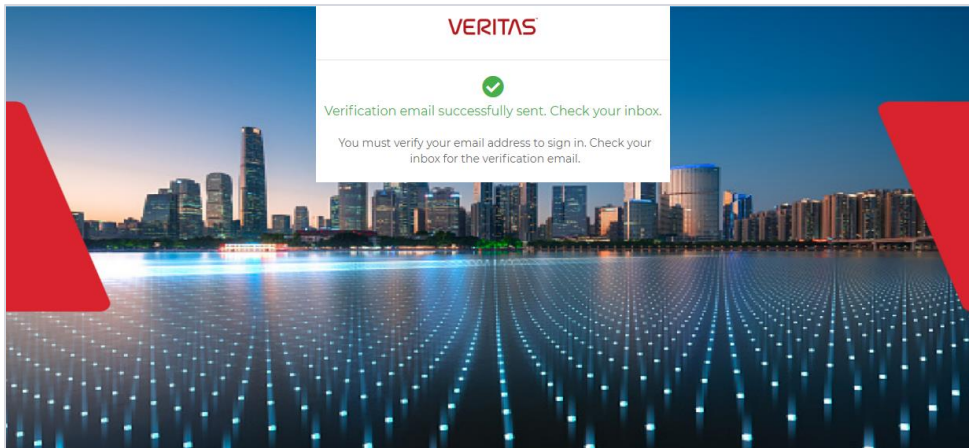

5. When complete, click **Register**. You will be navigated to this page where you must **activate your account** by going to your email and clicking the proper link.

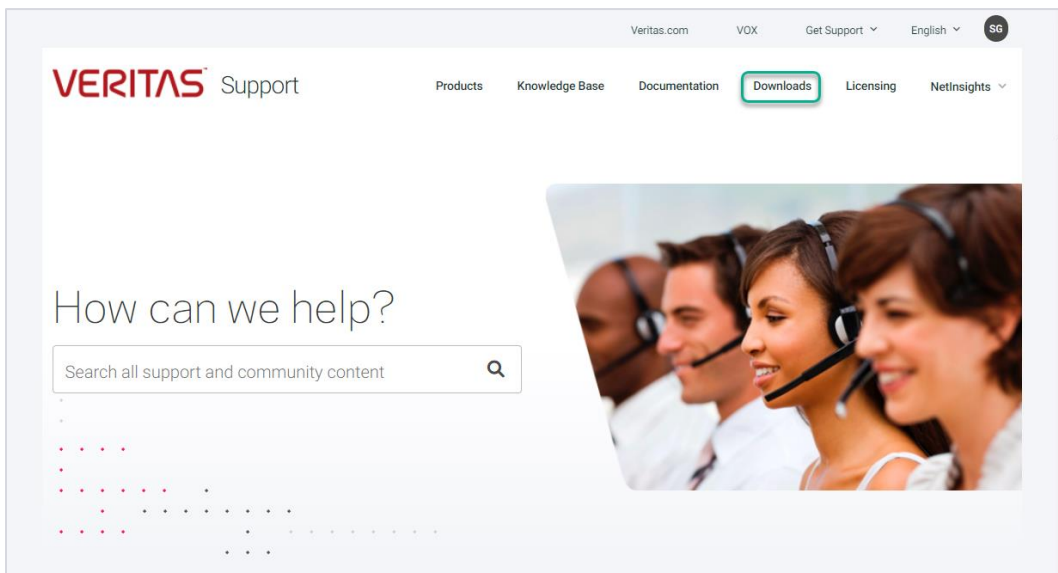

# Veritas Alta™ Data Compliance & Governance

RELEASE NOTES for June 2023 (Pine) Release

6. Click the **activation link** that is included in the received email to complete the registration process.
7. Go back to [Veritas Support](#) and **Sign in** to your account.

8. Click the **Downloads** button and you will be directed to this page.

RELEASE NOTES for June 2023 (Pine) Release

The screenshot shows the Veritas Support website interface. At the top, there is a navigation bar with 'Veritas.com', 'VOX', 'Get Support', 'English', and a user profile icon 'SG'. Below this is the 'VERITAS Support' header with a search bar and navigation links for 'Products', 'Knowledge Base', 'Documentation', 'Downloads', 'Licensing', and 'Netinsights'. The main content area is titled 'Support / Downloads' and features an 'Explore products' section with a search bar and filters for 'Product' and 'Version'. Below this is a section titled 'Latest releases for my products' with a 'Show all products' toggle and a 'Download history' link. The main content displays five product release cards:

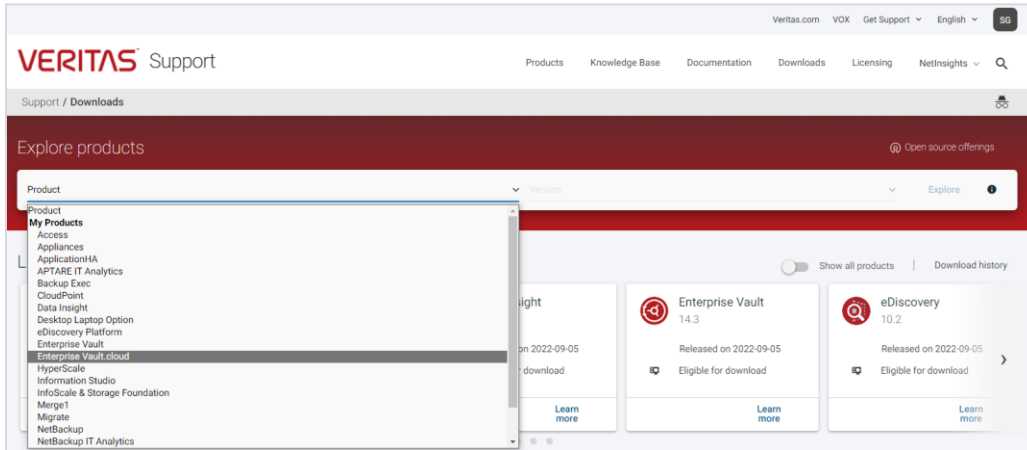

Product Name	Version	Release Date	Status	Action
NetBackup	10.1	Released on 2022-09-08	Eligible for download	Learn more
Resiliency Platform	10.1	Released on 2022-09-08	Eligible for download	Learn more
Data Insight	6.4	Released on 2022-09-05	Eligible for download	Learn more
Enterprise Vault	14.3	Released on 2022-09-05	Eligible for download	Learn more
eDiscovery	10.2	Released on 2022-09-05	Eligible for download	Learn more
