- A “New Version” popup alert added when logging in for first time after a new version has been released which will ensure the latest version is deployed to the browser
- New and updated support tools

## Other Changes

- Changed the following service URLs – To support modernization of our user interfaces, it was necessary to redirect our existing end user URLs to new endpoints. Please consider any impact this may have with networking access restrictions you may have in place for your end users. (Note: the ‘US’ data center URLs are listed below, the same applies to the ‘AP’ for Asia Pacific and ‘EU’ for Europe URLs):
  - Manage Console – the existing URL <https://manage.us3.archive.veritas.com/Login.aspx> is now redirected to the new URL <https://admin.us3.archive.veritas.com>
  - Discovery – the existing URL <https://discovery.us.archive.veritas.com> is now redirected to the new URL <https://ediscovery.us.archive.veritas.com>.
- The Internet Explorer browser is no longer supported for the Manage and Discovery applications.

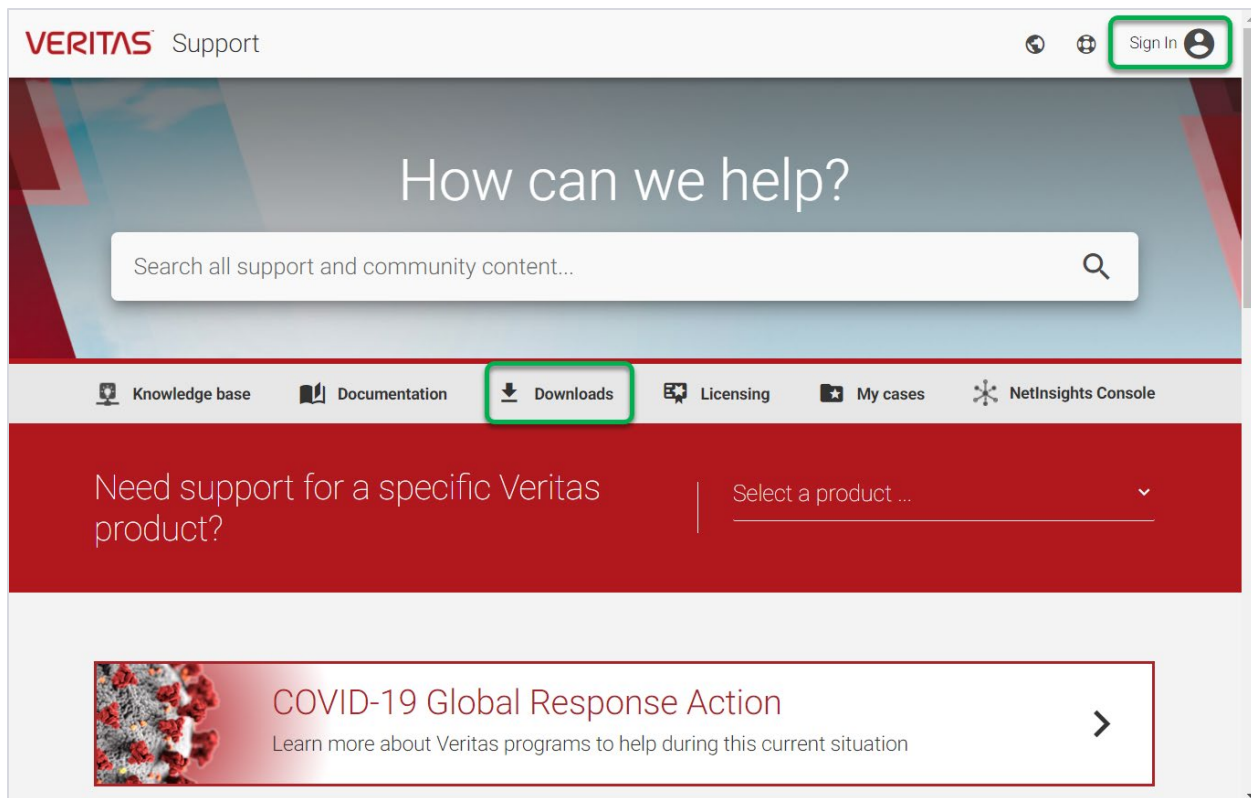

## Steps to Access Enterprise Vault.cloud Downloads

We have a new updated **Downloads Center** that makes finding your Veritas Product Downloads even easier! You can read about it here: [https://www.veritas.com/content/support/en\\_US/news/download\\_center](https://www.veritas.com/content/support/en_US/news/download_center)

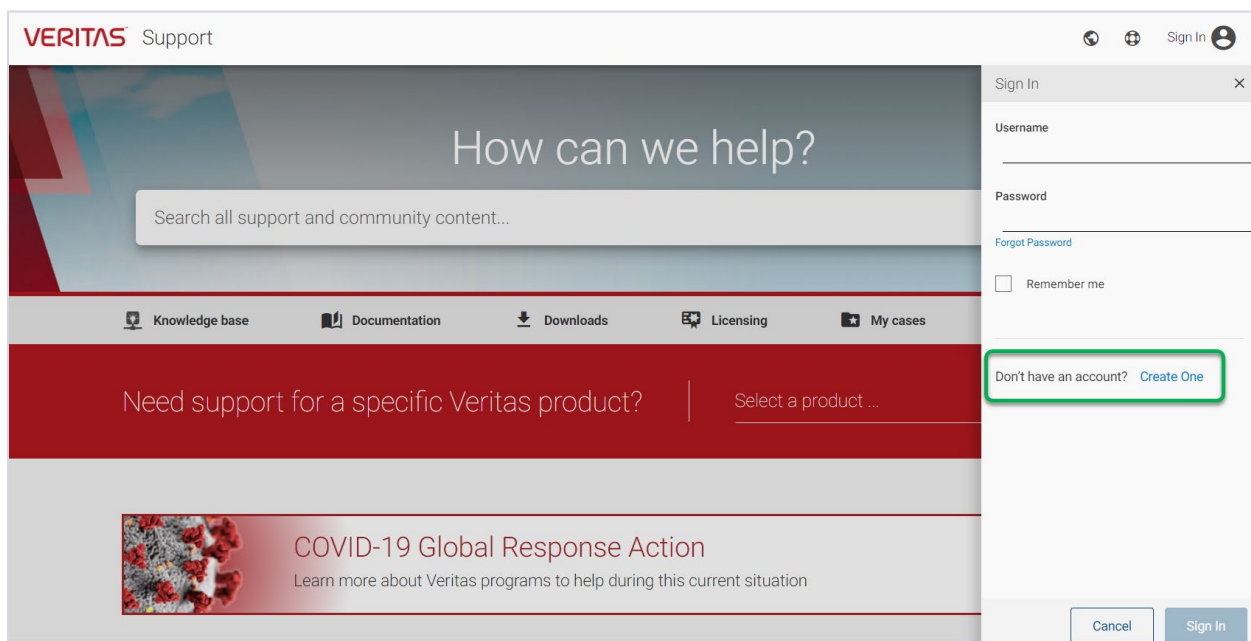

The new Downloads Center effectively combines the access to files from Veritas Entitlement Management System (VEMS), the Veritas Support website, or SORT into a one stop shopping experience. Now you can find, review, and download software releases for all Veritas products (full installs, full upgrades, patches, and other related files) in one place. Obtaining Veritas software is now as simple as going to Veritas Support and clicking on the **Downloads** icon from the homepage. It is that easy!

To start working in the Downloads Center:

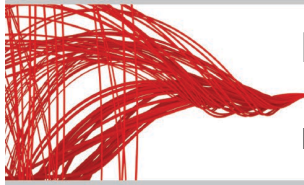

1. Go to the [Veritas Support](#).
2. If you have an account, then click **Sign-In** and jump to the step 8.

3. If you do not have an account, click **Create One**.

4. On the next screen, click **Register Now**.
