

The latest release of Enterprise Vault.cloud (EV. cloud) is scheduled¹ to begin roll out in late September 2022.

This release introduces new features for Enterprise Vault.cloud (Core), Veritas Advanced eDiscovery (VAD), and Veritas Advanced Supervision (VAS)².

WHAT'S NEW

Enterprise Vault.cloud (Core)	<ul style="list-style-type: none">• New UK Data Center – complements our existing EU data center giving UK based customers the option of keeping their data within the United Kingdom to meet any data sovereignty requirements they may have• EV to EV.cloud Direct Migrator – Performance Enhancements – scales out Migration Agents, Agent Groups and Databases. Adds support for Discovery Archive and Supervision migration.• Office 365 Sync performance improvements• Platform Support for ADFS 5.0• Manage Administration Console User Interface updates• Discard Rules – prevents known junk or unwanted items from entering the archive and reduces effort to manage or review data for discovery or supervision. This allows discarding items upon arrival based on one or more of the following:<ul style="list-style-type: none">○ Sender Address○ Recipient Address○ Subject○ Attachment Type• Custom Headers – enriches the metadata of items so they can be managed or discovered based on values provided in custom headers with either of the following types:<ul style="list-style-type: none">○ Number○ Date○ String• Merge¹ SaaS Updates<ul style="list-style-type: none">○ EV Folder target is added to the target list○ Added the ability of uploading the x.509 certificate to the EWS Server target○ The Portal, Agent, Processor, and Importer log file locations be configured using the appsettings.json file or Environment Variables○ Resolved an issue where the state of the configured importer was not updated without changing and saving any section in Importer Settings
--------------------------------------	--

¹ All future release dates are tentative and are subject to change at the sole discretion of Veritas. While the features and enhancements listed above are scheduled for the dates mentioned, Veritas makes no assurances that any or all these features and enhancements will be available at any time. Customers looking to purchase or renew their services with Veritas should do so solely based on the features of the service available at that time.

² Additional fees apply. Requires a concurrent number of Enterprise Vault.cloud Discovery Archive licenses.

	<ul style="list-style-type: none">○ Addressed an issue where “Thumbprint is empty” error message was thrown when trying to configure Azure Active Directory○ Fixed an issue where the state of the importer was not updated without changing and saving any section in Importer Settings● Veritas Information Classifier 4.0.0<ul style="list-style-type: none">○ Transparent patterns are new built-in patterns that provide users visibility into the internal logic of the pattern and are used in Transparent Policies○ Policy updates include New Personal Data Policies, New Ethics and Code of Conduct Policies, New Medical Diagnosis-related policies based on signs and/or symptoms for diseases and New Transparent Policies○ Proximity enhancement – Users can now join character-based proximity condition with different condition types such as patterns and regex in customized policies
Veritas Advanced eDiscovery	<ul style="list-style-type: none">● Modern Attachment Handling for Microsoft Teams Collections – allows for customized modern attachment handling at the time of Teams collections or at the time the Teams message was exchanged● Defensible Productions Exports – allows the user to export out relevant data within a case in a defensible, litigation-ready production of data, including the ability to slip-sheet error-handling of documents and the export of a metadata file in CSV format● “Send to Case” functionality - allows for a “compiling of all” data experience in searching, filtering, and pulling data across an entire database, and then sending those results to a case for immediate review purposes
Veritas Advanced Supervision	<ul style="list-style-type: none">● Intelligent Review Transparency – provides users with breakdown of exactly how an item was scored by Intelligent Review● Dashboard Enhancement – Pin Departments – allows users to organize their dashboard to pin and organize their most important departments● Evidence Of Review by Reviewer Report – provides a single place to view the entirety of reviewer activity across all departments centered for each reviewer in the report● Permission for Adding Hotwords and Hotword sets to a search – allows clients to add a level of security to protect the hotwords and hotwords sets from specific users who need the ability to configure searches

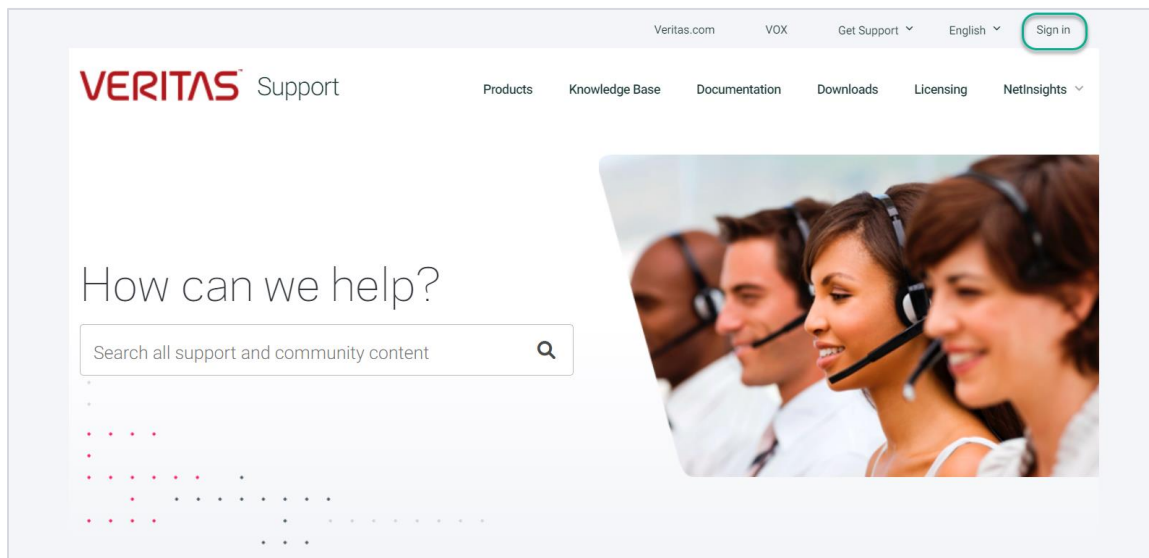

Steps to Access Enterprise Vault.cloud Downloads

We have a new updated **Downloads Center** that makes finding your Veritas Product Downloads even easier! You can read about it here: https://www.veritas.com/content/support/en_US/news/download_center

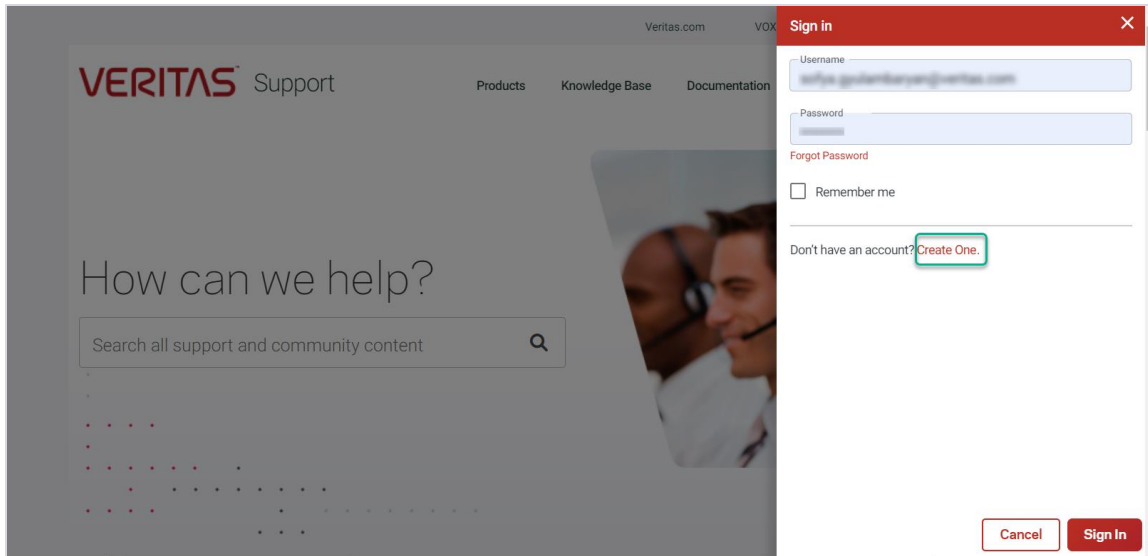

The new Downloads Center effectively combines the access to files from Veritas Entitlement Management System (VEMS), the Veritas Support website, or SORT into a one stop shopping experience. Now you can find, review, and download software releases for all Veritas products (full installs, full upgrades, patches, and other related files) in one place. Obtaining Veritas software is now as simple as going to Veritas Support and clicking on the **Downloads** icon from the homepage. It is that easy!

To start working in the Downloads Center:

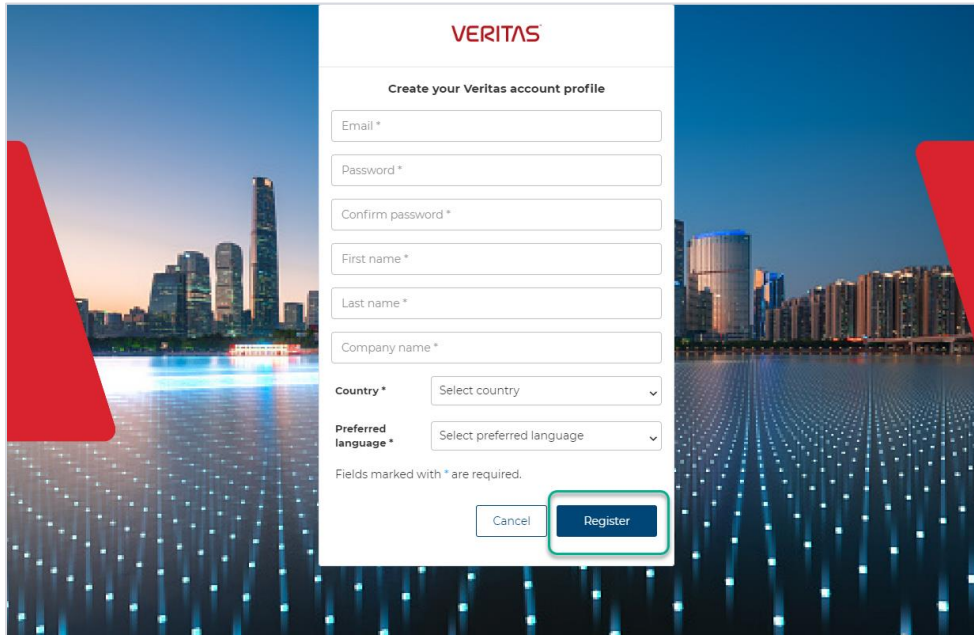

1. Go to the [Veritas Support](#).
2. If you have an account, then click **Sign-In** and jump to step 7.

3. If you do not have an account, click **Create One**.

4. In the opened window, fill in the proper details to create an account. When complete, click **Submit**.

RELEASE NOTES for September 2022 (Birch) Release

The screenshot shows the Veritas Support website interface. At the top, there is a navigation bar with 'Veritas.com', 'VOX', 'Get Support', 'English', and a user profile icon. Below this is the 'Support / Downloads' section. A search bar is present with 'Product' and 'Version' dropdowns, and an 'Explore' button. The main content area is titled 'Latest releases for my products' and features a grid of product release cards. The 'Enterprise Vault' card is highlighted, showing version 14.3, released on 2022-09-05, and is eligible for download. Other cards include NetBackup 10.1, Resiliency Platform 10.1, Data Insight 6.4, and eDiscovery 10.2. Each card includes a 'Learn more' link.

Product	Version	Released on	Status	Action
NetBackup	10.1	2022-09-08	Eligible for download	Learn more
Resiliency Platform	10.1	2022-09-08	Eligible for download	Learn more
Data Insight	6.4	2022-09-05	Eligible for download	Learn more
Enterprise Vault	14.3	2022-09-05	Eligible for download	Learn more
eDiscovery	10.2	2022-09-05	Eligible for download	Learn more

RELEASE NOTES for September 2022 (Birch) Release

9. Click the **Product** dropdown arrow, to search for **Enterprise Vault.cloud**.

10. Click **Explore**

11. In this window, click **Base and Upgrade Installers** and you will see a list of installers.

The screenshot shows the Veritas Support portal for Enterprise Vault.cloud HOSTED. The page includes a navigation menu with 'Products', 'Knowledge Base', 'Documentation', 'Downloads', 'Licensing', and 'NetInsights'. Below the navigation, there is a search bar and a filter dropdown set to 'HOSTED'. The main content area displays 'Enterprise Vault.cloud HOSTED' with release ID REL987212, release date 2014-02-28, and end of support life 2029-12-17. There are buttons for 'Access policy' and 'Print details'. A list of links is shown: 'Documentation', 'Licensing agreement', and 'Download history'. Below this, a dropdown menu is open, showing 'Base and upgrade installers' (highlighted with a red box) and 'Updates'.

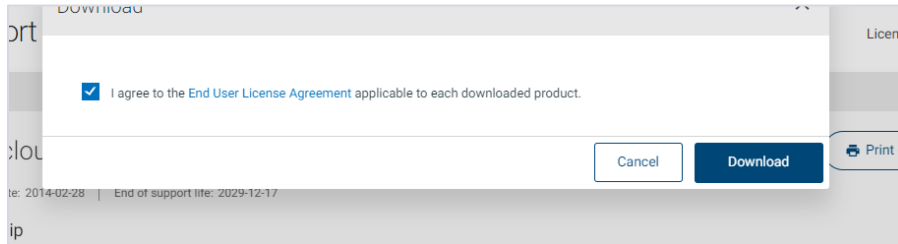

12. Check the box next to each file that you wish to download and click 'CloudLink 4.1.2 64-bit' or 'CloudLink 4.1.2 32-bit.'

The screenshot shows the 'Base and upgrade installers' page. It includes an 'Export list' button and a search bar for updates. Below is a table of files with checkboxes for selection. The 'CloudLink_4.1.2_32-bit.zip' and 'CloudLink_4.1.2_64-bit.zip' files are highlighted with a red box. The table also includes columns for file name, description, version, platform, and size.

File Name	Description	Version	Platform	Size
<input type="checkbox"/> CloudLink_4.1.1_64-bit.zip	Directory. Can also send welcome messages and set up Personal.cloud web folders for Exchange users	4.1.1	Windows	6.09 MB
<input type="checkbox"/> CloudLink_4.1.2_32-bit.zip	Automatically provisions and synchronizes accounts from Microsoft Active Directory or IBM Domino Directory. Can also send welcome messages, and set up Personal.cloud web folders for Exchange users	4.1.2	Windows	7.01 MB
<input type="checkbox"/> CloudLink_4.1.2_64-bit.zip	Automatically provisions and synchronizes accounts from Microsoft Active Directory or IBM Domino Directory. Can also send welcome messages, and set up Personal.cloud web folders for Exchange users	4.1.2	Windows	5.91 MB
<input type="checkbox"/> EvolCollectorAgent_2.0.0.4.zip	Enterprise Vault.cloud Collector Agent 2.0.0.4	2.0.0.4	Windows	5.09 MB
<input type="checkbox"/> FolderSync_1.14.0_Setup.zip	FolderSync 1.14.0	1.14.0	Windows	23.69 MB

13. The **End User License Agreement** pop-up window will appear, and we recommend reading it before checking the box to continue.

14. Click **Download** and the zip file will start downloading to your machine. Note that once you click **Download**, you will have agreed to the **End User License Agreement**.
